province. All that the respondent says in reply to this in his written statement is that his name is registered on the electoral roll of the East Bengal Muhammadan constituency for the Council of State, and he goes on to say that this is a constituency in the province of Bengal and that he has got all the necessary qualifications, *vide* paragraph 6 of his written statement. From the language used in the pleadings it is clear that by the words "any other constituency in the province" petitioner meant "any other constituency for the election of members of the Bengal Legislative Council," and that the respondent also understood the words in question in the above sense.

It thus appears that the petitioner has in his petition made a definite allegation of fact, viz., that the respondent's name is not registered on the electoral roll of the constituency in question or of any other constituency in the province for the election of members of the Bengal Legislative Council, and it further appears that this allegation of fact has not been denied specifically or by necessary implication, and has not been stated to be not admitted, in the written statement filed by the opposite party.

This being so, under Order VIII, Rule 5 of the Code of Civil Procedure, the above allegation of fact made by the petitioner in his petition must be held to have been admitted by the respondent.

The learned *yakil* for the respondent has contended that the allegation in question was vaguely worded and that Order VIII, Rule 5 does not apply, but this line of defence appears to us to be an afterthought, and we cannot take it into consideration in determining whether the allegation is to be taken as having been admitted or denied.

9. In view of the above finding there is really no issue of fact involved in this issue, and the question of burden of proof does not strictly speaking arise.

If however the above implied admission be ignored, we are of opinion that the burden of proving that his name is registered on the electoral roll of any constituency for the election of members of the Bengal Legislative Council, rests on the respondent and not on the petitioner.

In the first place, we are of opinion that the petitioner's allegation on this point is not only negative in form but also in substance, and therefore under section 103 of the Indian Evidence Act, the burden of proof rests not on him but on the respondent.

In the second place, the respondent is in an infinitely better position than the petitioner to know and to prove whether his name is or is not registered as aforesaid. He knows, or ought to know, for what constituencies he is qualified and whether his name has been registered or not, and if his name has been registered for any constituency, he can prove it by producing the electoral roll of that constituency,—whereas in order to prove the contrary, the petitioner would have to produce the electoral rolls of some ninety constituencies.

The fact,—if it be a fact,—of his name being registered as aforesaid, is therefore especially within his knowledge, and having regard to the principles underlying section 106 of the Indian Evidence Act, the burden of proving that fact rests on him.

Lastly, regard being had to the wording of rule 6 (*1*) (*a*), the opposite party is in the position of a person claiming to come under an exception to a general rule, and for this reason too the burden of proof rests on him.

It is no doubt true that the Court might, and in most cases should, presume, under section 114 of the Indian Evidence Act, that a sitting member of the Legislative Council is properly qualified and has been duly elected, but for the reasons mentioned above we are of opinion that we would not be justified in making such a presumption in the present case.

We hold that the burden of proving that his name is registered on the electoral roll of a constituency for the election of members of the Bengal Legislative Council rests on the respondent. He has not made any attempt to discharge that onus, and we therefore find that his name has not been so registered.

10. As regards the second part of the fifth issue, it is asserted and proved by the respondent and not denied by the petitioner, that the respondent's name has been registered on the electoral roll of the East Bengal Muhammadan constituency for the Council of State, and the question for decision is whether that constituency is included in the term "any other constituency in the province," as used in rule 6 (*1*) (*a*).

Now although the Bengal Electoral Rules were framed by the same authority as the Council of State Electoral Rules, and the Legislative Assembly Electoral Rules, each of these sets of rules is complete and self-contained, and we should therefore not look beyond the Bengal Electoral Rules in determining the meaning of the above expression. We should moreover look to the plain meaning of the words in question, and should not read into them any meaning which is not clearly expressed therein.

Part I of the rules is headed "Composition of Councils and Constituencies," and rule 3 thereunder lays down among other things that there shall be 113 elected members on the Legislative Council of Bengal, while rule 4 lays down that the elected members shall be elected by the constituencies specified in Schedule I.

Part II is headed "Qualifications of Elected Members," and rule 6 thereunder lays down among other things that no person shall be eligible for election as a member of the Council to represent a general constituency unless his name is registered on the electoral roll of the constituency or of any other constituency in the province. Reading the words "any other constituency in the province" in the light of the context as indicated above, we have no hesitation in coming to the conclusion that they mean "any other constituency in the province for the election of members of the Bengal Legislative Council," and that the expression "any other constituency" cannot possibly be intended to include constituencies for the election of members of the Council of State.

We therefore find that the fact that the respondent's name has been registered on the Electoral Roll of the East Bengal Muhammadan electorate of the Council of State does not render him eligible for election as a member of the Bengal Legislative Council.

The result is that we decide the fifth issue in favour of the petitioner, and find that the respondent's name has not been registered on the electoral roll of the constituency for which he has been elected, or of any other constituency in the province as required by rule 6, and that he is therefore not eligible for election as a member of the Bengal Legislative Council.

11. The first five issues having thus been decided in favour of the petitioner, it remains for us to consider whether the respondent's election should be set aside under rule 42. It has been contended by the learned vakil for the respondent that rule 42 does not cover a case of this sort, and that rule 43 limits our report to the points specified in rule 42. We have however no hesitation in coming to the decision that rule 42 does apply. The rules provide among other things that no one shall be elected as a member of the Bengal Legislative Council who is not eligible under the rules. The respondent is not eligible and yet he has been elected, so it is clear that the rules have not been complied with and that the result of the election has been materially affected by such non-compliance.

Rule 42 expressly lays down that under such circumstances the election shall be void, and there can therefore be no doubt as to our jurisdiction to submit a report to this effect.

12. We find that the respondent, the returned candidate, has not been duly elected, and that the election should be declared to be void.

We beg to add that we are unanimous as regards our decisions on all the issues and as regards our final finding, but there has been some difference of opinion on the question of burden of proof in connection with the fifth issue. Our report on this point is however expressed in terms of the views of the majority. On all other points we are, as has been stated, unanimous.

13. As regards costs, we see no reason to doubt that the respondent, relying on a wrong interpretation of rule 6, believed himself to be eligible for election, and that both he and the petitioner acted in good faith throughout.

In view of this fact, and of the fact that the case has turned mainly on the question of the correct interpretation of the rules, we direct that each party should bear its own costs.

## NOTIFICATION.

*No. 4962J.—The 24th June 1922.*—In supersession of all previous orders on the subject, the following rules made by the Governor in Council under Rule 9, Order XXVI, Schedule I, of the Code of Civil Procedure, 1908, relating to the issue of commissions to qualified pleaders, are published for general information :—

**Rules regarding the issue of commissions to qualified pleaders.**

**Issue of Commissions.**

1. When a commission issued by a Civil Court, under Rule 9, Order XXVI, Schedule I of the Code of Civil Procedure, 1908, is of such a nature as to require that the person executing it should have some knowledge of surveying, it should ordinarily be issued only to a person who holds a certificate of proficiency in surveying granted in accordance with these rules, or the rules promulgated with Government resolutions No. 2047J.—D., dated the 9th October 1901, and No. 2724J.—D., dated the 24th September 1904, which were published in the issues of the *Calcutta Gazette* of the 16th October 1901 and 28th September 1904, respectively, provided that a Civil Court is not precluded from issuing a commission to salaried amins in districts in which they still exist.

2. Certificates of proficiency in surveying will be granted to pleaders desirous of qualifying themselves for execution of commissions under Rule 9, Order XXVI, Schedule I of the Code of Civil Procedure, 1908, on their passing the examination held annually for the purpose at the places mentioned in Rule 6 below.

**Constitution and functions of the Examination Board.**

3. The examination will be conducted by an Examination Board which will be composed as follows :—

(1) A High Court Judge to be nominated by the High Court	...	...	...	...	} <i>President.</i>
(2) A District Judge to be nominated by the High Court	...	...	...	...	
(3) The Principal of the Bengal Engineering College ( <i>Secretary</i> )	...	...	...	...	} <i>Members.</i>
(4) Director of Surveys, Bengal	...	...	...	...	
(5) Ditto, Assam	...	...	...	...	
(6) The Principal of the Ashanulla School of Engineering, Dacca	...	...	...	...	
(7) The Principal of the Bihar School of Engineering ( <i>Joint Secretary</i> )	...	...	...	...	
(8) Director of Land Records and Surveys, Bihar and Orissa	...	...	...	...	

4. Certificates issued to candidates attached to Courts in Bengal and Assam will be signed by the Secretary.

Certificates issued to candidates attached to Courts in Bihar and Orissa will be signed by the Joint Secretary.

5. The Board will, through their Secretary and Joint Secretary, arrange to conduct the examination, to appoint examiners and receive their reports, to issue instructions to the candidates, to record marks and announce results, to receive examination fees, and to pay the examiners and contingent expenses. The Board will also determine the scale of remuneration to be given to the examiners, in consultation with the Government of Bengal and the Government of Bihar and Orissa.

**Rules for the Examination of Pleaders for Certificates of Proficiency in Surveying.**

6. An examination for these certificates will be held once annually in the month of February, or at such time as may be notified, at the following centres:—

The Bengal Engineering College	...	In Bengal, for Bengal and Assam candidates.
Dacca Engineering College	...	Ditto.
Patna Engineering College	...	In Bihar and Orissa.

7. Candidates practising in courts situated in the various districts of Bengal will be examined at the place enumerated below:—

Candidates practising in the Burdwan, Presidency and Rajshahi Divisions at the Bengal Engineering College, candidates practising in the Patna, Tirhut, Bhagalpur and Chota Nagpur and Orissa Divisions at Bankipur.

Candidates practising in Courts in the Dacca and Chittagong Divisions and in Assam will be examined at Dacca.

8. The maximum number of names that will be registered for the examination is 20 each at the centres at the Bengal Engineering College, Dacca and Bankipur.

9. In the event of more than 20 or less than 5 names being registered for examination at any one centre, the Secretary will have power to direct candidates to proceed for examination to one of the other centres, provided that this does not increase the number appearing at that centre to more than 20.

10. In the event of more candidates than provided for in Rule 8 being registered for examination in any year, the number admitted to the Bengal Engineering College, Dacca or Bankipur centres may be increased for that year. Should the number of candidates for examination at either of these centres be too great (in the opinion of the officer controlling the examination) to be examined at one time, he may arrange for two separate examinations in the field tests.\* All candidates must appear at the same paper examination.

11. The registration of candidates for the examination will be conducted by the Secretary of the Examination Board, in the case of candidates practising in Bengal and by the Joint Secretary in the case of those practising in Bihar and Orissa.

12. No candidate will be admitted to the examination unless he has been enrolled as a pleader, and—

- (i) has obtained credit for attendance at the special course of instruction not less than one year and more than four years previous to the date of the examination, or
- (ii) has been registered for admission to the Intermediate Engineering Examination of the Calcutta University, or
- (iii) has passed the Sub-Overseer Examination, or
- (iv) has obtained the Surveyor's certificate of one of the Government Survey Schools, or
- (v) be specially exempted from the operation of this rule by the Board controlling the examination.

13. No candidate will be admitted to the examination more than three times.

14. Candidates for admission to the practical examination shall, after they have had their applications on the prescribed form countersigned by the District Judge, forward them to the Secretary or Joint-Secretary of the Examination Board so as to reach his office on such date in January as may be fixed annually by the Secretary and notified in two issues of the Gazette during the preceding month. Each application must be accompanied by a receipt from the local treasury certifying that the examination fee of Rs. 50 has been paid into the treasury; unless such receipt be received, the candidate's name will not be registered.

\* The reason why it is not possible to hold a second examination at the other centres (vide Rule 10) is that they have not so large a number of teachers, and the holding of the examination necessitates the closing of the school while it is proceeding.

15. Each examination is complete in itself. A candidate will be required to pass the examination in every test, and will not be exempted from a test on the ground that he satisfied the examiner in it previously.

16. No certificates of partial success will be issued.

17. The examination will comprise the following tests:—

- I.—A paper on practical surveying (three hours).
- \*II.—A practical test in chain surveying, during which the candidate's knowledge of the use of a prismatic compass will be tested.
- III.—A practical test in plane tabling.
- IV.—A practical test in levelling.
- V.—An oral and practical test in the adjustment and care of surveying instruments.
- VI.—Plotting and calculations in connection with the work done in the field.

Tests Nos. II, III and IV will be such as can be completed by the candidate within four hours.

#### Rules as to special course of Practical Instruction.

*This special course in itself is of little use as a training in surveying. It is only intended as a preliminary instruction; the real training depends on the work done in the field during the year's interval between the course and the examination.*

18. Classes will be arranged at the Bengal Engineering College, the Bihar School of Engineering, Bankipore; and the Dacca School of Engineering, for six weeks in the months of January and February each year. The course will consist of four hours' field work and two hours' class work daily.

19. The heads of these institutions will fix the exact dates in each season, and the sites of training, and inform the candidates after the candidates are allotted under Rule 29.

20. The classes will be held under canvas, and the necessary tents for this purpose will be provided by Government.

21. A separate instructor for each class approved by the Board will be appointed by the head of each institution for eight weeks in each season.

22. Attendance will not be marked any day unless the pleader attends for the full working hours, and if a pleader does not work satisfactorily, he will be marked as absent.

23. The instructor shall keep a register of attendance. To obtain credit for attendance at this special course of instruction a candidate must have been entered according to Rule 22 as having attended at least 80 per cent. of the full number of working days, and this attendance must be so distributed that the Board is satisfied that none of the subjects taught has been neglected. He shall also submit maps and sections of all field work to the satisfaction of the instructor.

24. The teacher of the class will not be permitted to give private certificates for this course.

25. A statement showing the total attendance of each pleader will be prepared by the Teacher in charge and forwarded through the Controlling Officer to the Secretary in the case of centres in Bengal, to the Joint Secretary in the case of centres in Bihar and Orissa.

26. The instructor will arrange for tents, coolies and instruments under the supervision of the head of the institutions concerned.

27. The fee for the course will be Rs. 100 payable in advance.

28. Any candidate who desires to undergo the course of training must apply to the Secretary or Joint Secretary of the Examination Board not later than such date in November as may be fixed annually by the Secretary and notified in the first two issues of the Gazette during that month. The application must be endorsed by the District Judge. It should state the centre which the candidate wishes to join, i.e., B. E. College, Bankipore, or Dacca, and should be accompanied by a remittance for the amount of the fee prescribed for the course.

\* If in the candidate's opinion the test area fixed for Test No. 1 cannot be done by means of a chain survey, he may use the method of prismatic compass surveying, justifying by a note in his field-book his rejection of the former method.

29. The Secretary and Joint Secretary will allot candidates, consulting their wishes as far as possible, giving not more than 24 and not less than 8 to a class. If the number of candidates exceeds 72, he may arrange a second course at one centre. He will then inform the heads of the institutions as to the numbers in each of the classes, and the candidates as to the centres which they should attend.

30. Pleaders are expected to make their own arrangements for residence at the respective centres to which they are allotted.

31. The following is the syllabus of instruction :—

(a) *Practical Work.*

2 weeks on chain surveying ;	2 weeks on plane tabling ; and
1 week on prismatic compass ;	1 week on levelling.

(b) *Class Work.*

Use of mathematical instruments	Variation of compass.

CALCUTTA.

*The 1st June 1922.*

**THE GOVERNMENT COMMERCIAL INSTITUTE.****The Day Course.**

1. There is a specialized Day Course extending over two years. Candidates who have passed the Matriculation Examination are eligible for admission. Others are admitted, provided they satisfy the Education Department, by passing a preliminary test examination of a similar standard, that they have sufficient general education to enable them to derive advantage from the teaching.

**2. Compulsory subjects :—**

- (a) English (modern), and especially English Correspondence, including Commercial Correspondence, letter-drafting and precis-writing.
- (b) Arithmetic, including Commercial and Mental Arithmetic.
- (c) An Indian vernacular.
- (d) Commercial Geography.
- (e) Book-keeping (Junior).

For an Indian vernacular, the Institute provides a thorough training in Bengali. Students taking up any other vernacular are given directions for the examination for which they have to prepare themselves. Anglo-Indian candidates who have passed the Higher Standard examination in an Indian vernacular held by the Inspector of European Schools, Bengal, or who have passed the Lower Standard examination in an Indian vernacular held by the Board of Examiners, will be further examined in the same vernacular in the following manner :—

- (1) They will be examined orally to test their command of the vernacular for the ordinary purposes of business.
- (2) They will have to translate into English a business letter dictated in the vernacular, and will be examined in both the dictation and translation.

3. **Optional Subjects.**—Shorthand and Typewriting—(A candidate may take up one or both, according to his option).

A student must take up all the compulsory subjects and must pass in each to obtain the final certificate. The marks obtained in the Optional Subjects—Shorthand and Typewriting—are counted towards a prize.

4. **Examination.**—At the end of the first year's course, an examination is held to determine promotion to the second year class and to decide the award of scholarships. At the end of the two years' course the final examination is held towards the end of April or the beginning of May. A candidate who fails in one of the five compulsory subjects is not eligible for a pass certificate. A candidate who fails in one subject only in the final examination may appear again in the final examination in the following year in that subject without attending the class. A candidate who fails in only two subjects in the final examination may appear in the final examination in the following year in those subjects, provided that he attends the classes in those subjects.

A candidate who attends a final examination to be examined in a subject in which he has previously failed must pass again in English, if English was not a subject in which he had failed, in order to obtain the diploma.

5. **Text-books.**—The following text-books are prescribed :—

- (a) English—Hooper and Graham's "Home Trade."
- (b) Arithmetic—Grant and Hill's "Commercial Arithmetic" and "Mental Arithmetic."
- (c) Bengali—"Kapalkundala" by Bankim Chandra Chatterjee.
- (d) Geography—"Commercial Geography of the World" by A. J. Herbertson, "A Short Commercial Geography" by L. W. Lyde, "A School Economic Atlas" by J. G. Bartholomew and "A New Geography of the Indian Empire, Burma and Ceylon" by Morrison.
- (e) Book-keeping—Arthur Fieldhouse's "Complete Book-keeping."
- (f) Shorthand—Pitman's Shorthand Instructor, Centenary edition.

The text-books cost about Rs. 25.

6. **Session and Fees.**—The session begins about the end of June and closes about the end of April. The usual summer and Puja vacations are given. The students have to pay an admission fee of Rs. 3 and monthly tuition fee at the rate of Rs. 3 beginning from June. The final examination fee is Rs. 8. Tuition fees are to be paid monthly in advance after admission.

7. **Attendance.**—Strict regularity of attendance is enforced. Students attending less than 75 per cent. of the lectures are debarred from promotion to the second-year class or from appearing at the final examination. Classes are held from 10-30 A.M. to 4 P.M. with half-an-hour's interval daily from 1-30 to 2 P.M. On Saturdays classes are held from 10-30 A.M. to 1-30 P.M.

8. **Scholarships and Prizes.**—Three scholarships of Rs. 12 each per mensem, tenable for one year, are awarded to those students of the first-year class who, amongst those admitted, have secured the highest marks in English at the Matriculation Examination of the Calcutta University. Three scholarships of Rs. 20 each per mensem, tenable for one year, are awarded to those students of the second-year class who obtain the highest total marks at the examination held at the end of the first-year's course. Holders of Junior and Senior scholarships at the Matriculation Examination are not eligible for these scholarships. The best two students in the final examination at the end of the two years' course obtain prizes of Rs. 75 and Rs. 50, respectively, offered by the Bengal Chamber of Commerce. The Remington Typewriter Co. present medals to the best three students in typewriting at the final or special examination.

9. Successful candidates are eligible for posts in the lower grade Secretariat Service.

10. Applications for admission must reach the Principal before the 30th June every year. As only a limited number can be enrolled, priority of application is considered.

## RESOLUTION ON THE REPORT ON THE ADMINISTRATION OF THE JAIL DEPARTMENT IN THE PRESIDENCY OF BENGAL FOR THE YEAR 1921.

### GOVERNMENT OF BENGAL.

#### REVENUE DEPARTMENT.

##### Jails.

#### RESOLUTION—No. 6343R.J.

CALCUTTA, THE 4TH JULY 1922.

#### READ—

The Report on the Administration of the Jail Department in the Presidency of Bengal for the year 1921.

#### Read also—

The Reports for the years 1920 and 1919 and the resolutions of Government recorded thereon.

The year 1921 was one of unusual activity in the Jails Department owing on the one hand to the political unrest caused by the non-co-operation movement and on the other hand to the consideration, and introduction of some.

of the reforms contemplated by the Indian Jails Committee. The first definite sign of the permeation of the jails by the unrest caused by the non-co-operation movement was the outbreak at the Central Jail at Rajshahi, where a rumour had spread that the British Government had come to an end and that all prisoners were to be released. On the 24th March 1921, 669 out of 969 prisoners escaped; the majority were, however, recaptured. Outbreaks occurred subsequently on a small scale in the sub-jails at Serajganj and Netrakona. There were also conspiracies in some other jails which were suppressed in time. At the end of the year the movement affected the department in another way. The numerous arrests that were made in pursuance of the notifications issued under the Criminal Law Amendment Act, Part II, and similar laws put an unprecedented strain on the resources of the Jails Department. No less than "5,802 non-co-operation prisoners were admitted, Calcutta alone being responsible for 3,667. This necessitated opening a temporary jail, wherein 1,721 men were admitted during eleven days—on one night alone, the 23rd December, this jail took in 1,059 prisoners. The Presidency Jail too with a registered accommodation for 1,884 at one time held 2,783 prisoners. The District jails of Chittagong, Rangpur and Faridpur were highly taxed to find room." The officials of most of the Jails concerned met the situation with considerable tact, patience and firmness.

2. Most of the reforms contemplated by the Jails Committee came under discussion. Many of them had to be kept in abeyance for financial reasons, but minor improvements which could be effected without much additional expenditure were given effect to as far as possible. To meet the religious demands of Muhammadan convicts they have been provided with long trousers instead of shorts. In a number of jails honorary Moslem preachers were appointed for giving moral and religious instruction to Muhammadan prisoners on Fridays. The burial of dead Muhammadan prisoners, according to Muhammadan customs, at the expense of Government was sanctioned. Sikh prisoners were allowed to retain certain of their religious symbols, and facilities for the more important religious observances of the various castes are allowed in jails. Female non-official visitors were allowed in a few jails. Arrangements were also made for the retransfer from the Andamans of all political prisoners, female convicts and other persons whose retransfer to India was considered necessary on medical grounds; and orders were passed by the Government of India absolutely prohibiting the deportation to the Andamans of female convicts and certain other classes of criminals. No convict from Bengal was transported to the Andamans in 1921.

3. The Inspector-General of Prisons draws attention to the fact that the number of juvenile prisoners admitted to the jails reached the maximum during the year under review; and he gives his opinion that in England not one of these children or young persons would have been committed to prison. After, however, the end of the year the Bengal Children Act, 1922, was passed into law; and the Governor in Council trusts that this measure, which *inter alia* provides that no child under the age of 14 years shall, under any circumstances, be sentenced to death, transportation or imprisonment for any offence, will remove this reproach from the administration of the Province.

4. Other notable features during the year were the marked decrease in the number of resignations of warders due to the improvement in their pay from 104 in 1920 to 52 in 1921, the decline in the number of punishments inflicted for offences committed in jail from 18,562 in the previous year to 16,353 in the year under review, the fall in the number of whippings inflicted from 61 to 33, the increase in the net cash earnings of the department from Rs. 3,22,676 to Rs. 6,92,580, and last but not least the low death rate of 16 per mille. Mention must also be made of the valuable assistance rendered by the Calcutta Prisoners' Aid Society in finding employment for ex-prisoners, a field in which, as the Inspector-General of Prisons indicates, there is great scope for further activity in Bengal.

4. Finally, His Excellency in Council has much pleasure in acknowledging the good work done by the officers mentioned by the Inspector-General of Prisons and in recording the thanks of Government to Lieutenant-Colonel Thompson for his efficient administration of the Jails Department.

ORDER.—Ordered that a copy of this resolution be forwarded to the Inspector-General of Prisons, Bengal, for information.

Ordered that a copy of this resolution and a copy of the report be submitted to the Government of India in the Home Department.

Ordered also that the resolution be published in the *Calcutta Gazette*.

By order of the Governor in Council,

M. C. McALPIN,

*Secretary to the Government of Bengal.*

# DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 29th June 1922.

**Summary.**—During the week the rainfall throughout the Presidency was generally moderate to heavy. Preparation of lands for winter paddy and their transplantation continued. Sowing of jute is still progressing in places. The heavy rain is retarding the weeding of *aus* paddy and jute and has caused some damage to the winter paddy seedlings in some West Bengal districts. The cultivation of crops on high land is progressing well. The average price of common rice for the Province has risen by about 1·4 per cent., as compared with that of the previous week.

All that piece or parcel of land containing an area of 2 cottahs 14 chittacks and 5 square feet more or less, being premises No. 10 (formerly No. 5) Nanda Lal Mullick Lane, formerly No. 8-1, Ram Bagan Lane in Sootanati in the town of Calcutta allotted to the said Benode Behary Mukerjee by the return of the Commissioner of Partition filed in suit No. 136 of 1900 of the said High Court (wherein Sailendra Nath Mukerjee was the plaintiff and the said Benode Behary Mukerjee and others were the defendants) being Lot 1/a in the plan thereto annexed and bounded on the north by the tenanted house of Tulsi Dass Bewah, on the east partly by the premises No. 9, Nanda Lal Mullick Lane and partly by the bustee land of Tulsidass Mukerjee and partly by a common passage, on the South by the premises No. 11, Nanda Lal Mullick Lane, being the land of Nanda Lal Sett, and on the west by the bustee land of Gouri Sanker Dey, deceased

It appears from searches in the Calcutta Registration Office from 1865 to 1922 that there is no record of any encumbrances affecting the interest of the said Benode Behary Mukerjee in the said premises No. 10, Nanda Lal Mullick Lane, save and except the following, that is to say, an Indenture of Mortgage, dated the 13th October 1920, executed by the said Benode Behary Mukerjee in favour of Bhola Nath Basak and Baidya Nath Basak, sons of Jagat Durlab Basak, deceased, of No. 80, Pathuriaghata Street in the town of Calcutta for Rs. 6,500, carrying interest thereon at 10 per cent. per annum, registered in book 1, volume 5, pages #4 to 96, being serial No. 5359 for the year 1920

It also appears from searches made of the records of the said suit No. 136 of 1900 of the said High Court that in the said suit which was a suit for partition by the return of the Commissioner of Partition dated the 5th June 1906, which was confirmed by an order of the said High Court, dated the 9th July 1906, the Commissioner of Partition allotted to the said Benode Behary Mukerjee as and for his equal fifth part or share of the estate partitioned among others No. 8-1, Ram Bagan Lane (subsequently changed to No. 5 and now No. 10, Nanda Lal Mullick Lane), being land measuring 2 cottahs 14 chittacks and 5 square feet of the value of Rs. 1,412 to be held and enjoyed by him in severalty absolutely.

It also appears from searches made of the records of the Assessment Registers of the Corporation of Calcutta from the year 1865 to 1922 that the said premises No. 10, Nanda Lal Mullick Lane was originally about the year 1868 and before No. 5-3-2, Manicktola Street, subsequently changed between the years 1868 and 1869 to No. 8-1 Ram Bagan Lane, thereafter changed between the years 1906 and 1913 to No. 5, Nanda Lal Mullick Lane and changed since the 16th August 1913 to No. 10, Nanda Lal Mullick Lane aforesaid.

The decree was for Rs. 3,580.11.6 and Rs. 297.2 was awarded by the decree for costs, making a total of Rs. 3,877.13.6, but the defendant has made a part payment of Rs. 1,000 and the above-mentioned property is to be sold for the realisation of Rs. 2,877.13.6, besides the costs of and incidental to the execution proceedings and the sale herein.

## **• STATEMENT OF OBJECTS AND REASONS.**

Two clerical errors in section 5 have been discovered in the assent copy of the Bengal Court-fees (Amendment) Act, 1922, in regard to Article 1. These are remedied in the proposed clause 2 of the Bill and the word "and" at the end of the amendment, moved by Babu Annada Charan Dutta, is omitted, in order to give clear effect to the decision of the Council and to the intention of the member.

Doubt has also been expressed as to the meaning of Articles 11 and 12, and it is proposed in clause 3 to amend these Articles so as to give clear effect to the decision of the Council. Following the procedure adopted in 1920 by the Indian Legislature with reference to the Super-tax Act of that year, the amendments are to take effect from the date of the commencement of the Bengal Court-fees (Amendment) Act, 1922.

## TECHNICAL AND VOCATIONAL EDUCATION.

### GOVERNMENT OF BENGAL.

#### EDUCATION DEPARTMENT.

##### Educational.

CALCUTTA, THE 6TH JULY 1922.

RESOLUTION—No. 1331Edu.

THE question of the introduction of technical and vocational education in the schools and colleges of this province has for some time engaged the earnest attention of the Government of Bengal in the Ministry of Education. The poverty of the middle classes and the conditions of modern society at the present day have made the subject a matter of special importance. It is

realised that the purely literary education, which has so long been imparted, no longer offers the chance of a decent livelihood to the youths of this country and the demand for a system which will hold out better prospects has in consequence grown more and more insistent.

2. The question has not altogether been neglected in the past. Various attempts have been made to counteract the excessive bias in favour of the literary studies with which the present system is over-weighted, but they have not met with any conspicuous success. In the year 1902 agricultural classes were opened in several zilla schools as an experimental measure, but they had to be closed before long owing to a lack of necessary support. At about the same time a scheme, commonly known as the "bifurcation of studies," was evolved with a view to prepare students not only for an University career but also for all forms of "practical, industrial and commercial pursuits." According to this scheme, the general subjects taught in the first two classes of a high school, which conformed to the syllabus laid down for the Matriculation Examination, were called the "A" Course; the special subjects which led to the Apprentice Department of the Civil Engineering College or the Overseer Department were termed the "B" Course, while the Commercial and Industrial subjects formed the "C" Course. The "C" classes, of which one of the special features was the grant of a certificate on the result of an examination, which was considered as equivalent, for the purposes of employment, to the Matriculation Certificate of the Calcutta University, were started in 7 schools, but, in spite of the special facility thus offered, they were poorly attended and very soon ceased to exist. The same fate very nearly overtook the "B" classes also, but the course hitherto followed has recently been revised and the effect is being watched. The latest and the most recent attempt in the same direction is the initiation in several schools of manual training classes, the main object of which is to teach wood work. These are in an experimental stage. The failure of all these efforts to create a taste for vocational education has been due to the fact that the Matriculation Examination has so far dominated the secondary education system and any course which did not lead to an University career was looked upon with disfavour. It is believed, however, that public opinion has of late undergone a change in this respect, and the necessity for reform is now realised. The Government of Bengal in the Ministry of Education consider, therefore, that the time has come to adopt a policy more suited to the altered conditions. They have accordingly had for some time under consideration certain schemes which, when fully developed, they desire to introduce in the educational institutions of Dacca in the first instance, and, if successful, to extend to other parts of the province.

3. The schemes are intended to meet the requirements of the secondary schools, the intermediate colleges and the Dacca University. So far as the first are concerned, it is recognised that all that can be attempted is to give a bias towards practical education, and it is, therefore, intended that while the training of the hand and eye will be the main object to be kept in view, advantage will be taken of the course followed in the manual training classes to teach a boy a definite craft which is likely to prove useful to him in after life, whether he takes up an University career or not. In order to achieve this object, it is proposed to establish one or more central workshops in Dacca which will be available for the use of all the secondary schools in the town, and where systematic training will be given in carpentry, smithy, card-board making and other suitable crafts. The necessary number, location, equipment, staff and control of these workshops are questions which will require a careful consideration.

4. The case with the Intermediate Colleges and the University is different, and there is no reason why a definite vocational course should not be introduced in these institutions. In framing, however, a scheme for them, the fact that an University degree cannot be granted without adequate culture will be kept in view and the curriculum so devised that the needs of both the cultural and the vocational sides are attended to. Thus, to give one

illustration, it is proposed that, for a commercial degree, the course adopted for the intermediate stage will include, on the cultural side, English, the vernacular and one or two other subjects such as Mathematics or Geography and, on the vocational, a practical training in precis and letter-writing, accounts type-writing and shorthand in English and Bengali, while in the post intermediate stage, the combination prescribed will, on the one hand, be a course of higher studies in English and the vernacular and one or two subjects from an optional group. e.g., Political Economy, Principles of Banking, Mathematics, Commercial Geography, etc., and, on the other, higher Accountancy, Principles and Practice of auditing, practical training in banking in one group and suitable subjects concerning Commerce in an alternative group. Similarly, arrangements will be made for the provision of other suitable literary groups in combination with such subjects as Dyeing, Tinctorial Chemistry, Agriculture, Tanning, sheet metal industry for the manufacture of small articles and the like, to enable students to follow a definite course from the Intermediate up to the highest stage. In making the selection preference will be given to subjects for which there is likely to be an opening for trained youths either in undertakings with a small capital or as employees in well-established concerns.

For students, however, who are unwilling or unable to take advantage of the full course, it is possible that, with some modification in the cultural curriculum, a course of training may be devised which will be shorter in duration, and, at the same time, lead to some definite remunerative career. The possibility of introducing photography, analytical chemistry, the manufacture of scientific instruments and similar subjects will in this connection be borne in mind.

5. There remains the question of providing a suitable course of Engineering and Medical Education in connection with the University of Dacca. The development of these departments is essential for the complete organisation of the University, but, owing to the heavy cost which it will entail, it is doubtful whether much can be done in this direction now. There is, however, the possibility of expanding the Dacca Engineering School so as to provide not only for a degree course, but also for a training in such subjects as railway, mechanical and electrical Engineering and this question will be taken into consideration. The provision of higher medical training is a matter of greater difficulty. There is of course the Medical School in Dacca which may be improved, but Government has at present no intention of raising it to a higher status. Any scheme for the establishment of a Medical College in connection with the University will, therefore, have to be prepared independently of the existing institution.

6. The proposals, of which an outline has been given in the previous paragraphs, are of a tentative nature, and will require a careful and detailed examination before they can be put into operation. In order that this may be done, and before they decide upon a definite plan of action, Government feel that it will be desirable to consult the educational experts and such representatives of the people as are competent to offer advice and suggestions in the matter. They have accordingly decided to appoint a Committee which will be constituted as follows :—

1. Vice-Chancellor, Dacca University      ... *President.*

#### *Members.*

2. Commissioner of the Dacca Division.
3. Principal of the Dacca Intermediate College.
4. Chairman of the Board of Intermediate and Secondary Education, Dacca.
5. Principal of the Dacca Jagannath Intermediate College.
6. Principal of the Dacca Assanulla School of Engineering.
7. Vice-Principal, Assanulla School of Engineering.

**DRAFT RESOLUTION REGARDING THE APPOINTMENT OF A COMMITTEE TO ADVISE GOVERNMENT AS TO THE BEST METHOD OF INDUCING INDIAN LADIES OF GOOD SOCIAL STATUS TO TAKE UP NURSING.**

**GOVERNMENT OF BENGAL.**

**LOCAL SELF-GOVERNMENT DEPARTMENT.**

**Medical.**

CALCUTTA, THE 10TH JULY 1922.

**RESOLUTION—No. 1726Medl.**

Minister in charge: The Hon'ble Sir S. N. Banerji, Kt.

THE desirability of creating a class of trained Indian Nurses has been constantly recognized for some years past. This idea appealed very forcibly to Lady Carmichael, and she devoted herself with great energy to giving it some practical shape during her stay in Bengal. In 1915 a scheme on these lines was prepared in connection with the Sambhu Nath Pandit Hospital, Bhowanipur; the existing posts of Matron and Staff Nurses were abolished, and one Lady Superintendent, one Lady Deputy Superintendent and two Lady Assistant Superintendents were appointed to supervise the training of 20 Indian Nurses. These 20 probationers were granted subsistence allowances of Rs. 10, Rs. 15 and Rs. 20 per mensem during their first, second and third year of training respectively, while they were also granted a small diet allowance. Quarters were provided at a considerable cost. A portion of the expenditure was met by Government, while a contribution was obtained from the Corporation.

There are ordinarily six vacancies each year at the training school which has turned out 39 nurses since its establishment, viz., 17 Bengali, 2 Bihari and 20 hill women. Most of the Bengali women are Christians, and this type of employment so far appears to have had no attractions for orthodox Hindu and Muhammadan women.

2. Indian Nurses (as distinguished from *dhais*) also receive training in the Dufferin Hospital, in the Sagor Dutt Hospital at Kanarhati, and in the Mitford Hospital of Dacca. Training is also given under a two-years' course in the excellent hospital attached to the Church of Scotland Mission at Kalimpong, but the hill girls who undertake this course, are not certified until they undergo a third year of training at the Sambhu Nath Pandit Hospital. It is understood that there is no great difficulty in obtaining candidates for training at the Dufferin Hospital, and it is said that these nurses when trained, succeed in obtaining employment in the northern part of Calcutta. The Sagor Dutt Hospital trains nurses for its own requirements, and does not grant certificates.

The scheme inaugurated in connection with the Mitford Hospital provides for the training of 20 pupil nurses who undergo a three-years' course. Elementary classes in anatomy, physiology, midwifery, surgical and medical nursing are held, while a Lady Superintendent directly supervises the practical training of the probationers.

The nursing arrangements in the Calcutta Medical College hospitals and in the Presidency General Hospital are supervised and controlled by the Calcutta Hospital Nurses Institution. There are at present 21 Indian nurses employed in the Eden Hospital.

3. It will appear from the above facts that Government and other bodies concerned with nursing arrangements, have for some time past been anxious to induce Indian women to undertake nursing as a profession. This

question has been raised on more than one occasion recently in the Legislative Council with apparently two objects. On the one hand, the desire to popularize nursing as a profession among Indian women appears to aim at securing greater economy in hospital management by the employment of a cheaper agency, while on the other hand it appears to be thought that nursing may offer an avenue of employment for Indian ladies of a higher social status, who through widowhood or other causes may have no strong domestic ties. A fairly good general education is necessary to enable a probationer to assimilate and profit by the course of training required by a nurse, while under the recent orders of Government to which reference will shortly be made, a somewhat arduous curriculum of theoretical instruction and practical work is prescribed for those desiring to be enrolled as qualified nurses. It is, however, possibly not the menial tasks to which a nurse must submit, which renders this profession somewhat unattractive to Indian ladies of the middle classes, but rather the unaccustomed publicity into which a nurse is inevitably forced by the nature of her profession. However this may be, Government for some time past have been anxious to popularize nursing as a profession amongst Indian women, and it is desired to ascertain whether more effective measures can be taken to secure this end.

4. Government are satisfied that it is essential to prescribe a high standard of professional qualifications for the fully trained and certified nurse. The State Medical Faculty of Bengal recently addressed Government in this behalf, and in accordance with their recommendations, orders were issued on the 30th January 1922, approving the inauguration of a regular course of instruction and a qualifying examination for nurses in Bengal. It is unnecessary to refer to these proposals in detail, but, briefly, Government have approved the issue of a Senior and Junior Certificate in Nursing, in each case with a three-years' course which includes—besides practical training—instruction in elementary anatomy, physiology and hygiene. Examinations are to be held at the end of the first and second years of the course by the authorities of the institutions, approved for the training of nurses, while the final examination for the qualifying certificate is to be held by the State Medical Faculty. For the present the Senior Certificate Examination is open only to nurses who have been trained at the Calcutta Medical College and the Presidency General Hospital, although the recognition of other institutions which may be properly staffed and adequately equipped for training purposes, may be granted subsequently. Provision for training nurses up to the junior standard exists at the Calcutta Medical College and the Sambhu Nath Pandit Hospital, while the training imparted in the Dufferin Hospital, although restricted to the nursing of women and children, will qualify nurses for the final junior certificate, if supplemented by a six-months' training in the men's wards of a general hospital.

Orders have also issued for the institution of separate examinations for Midwives for the two Certificates to be known as the Senior and Junior Midwives' Certificates. The Calcutta Medical College (Eden Hospital), the Sambhu Nath Pandit Hospital and the Dufferin Hospital are recognized as institutions for the training of midwives. The course for the Senior Midwives' Certificate is limited to one year, of which six months are to be devoted to instruction in elementary midwifery and the practical nursing of women and children, and six months to obstetrical nursing with the personal conduct of 20 labour cases and attendance at not less than 100 confinements. The course for the Junior Midwives' Certificate extends over 14 months, of which six months are to be allotted to instruction in elementary midwifery and the practical nursing of women and children, and eight months to obstetrical nursing, while candidates for this certificate must have personally conducted 10 labour cases and have attended at least 50 such cases.

The examinations in all cases will be held by the State Medical Faculty, and the certificates will be issued by this authority.

It is clear that courses of this kind involve hard work and steady application, but as already stated, Government are of opinion that it would be an unwise and retrograde step to certify any nurses, whose capacity and application have not been tested by severe standards of this kind.

5. It is natural that candidates for the nursing profession should desire to be assured that profitable employments will be available after obtaining their certificates. It cannot be stated that the outlook under present conditions for Indian nurses is very hopeful. They can aspire to become Staff Nurses for the Sambhu Nath Pandit Hospital or may undertake private nursing either independently in connection with the hostel associated with Lady Roger's name, or again (more rarely) they may find employment in mofussil hospitals. The number of Staff Nurses in the Sambhu Nath Pandit Hospital is, however, small, while the demand for Indian nurses through the hostel is small. The Indian public is beginning to appreciate the essential need for good nursing in most forms of illness, but it is probable that for some time to come, the fact will not be fully grasped that good nursing is the handmaiden to proper surgical or medical treatment. The mofussil hospitals might appear to offer some scope for the trained Indian nurses, but unfortunately these hospitals are at present usually in financial difficulties and are generally unable to meet the cost of engaging a trained nurse.

There is, however, a wide field for Indian nurses in the large general hospitals of Calcutta which at present are almost entirely staffed by European or Anglo-Indian nurses. The Calcutta Hospital Nurses' Institution has definitely expressed its willingness to provide employment for Indian nurses who have been properly trained, and Government (Ministry of Local Self-Government) desire that measures may, if possible, be devised, to attract Indian ladies to this profession, with the prospect of obtaining remunerative employment in the organization which the Calcutta Hospital Nurses' Institution so ably controls.

6. Government recognize that in a matter of this kind, it is impossible to devise a scheme with any prospect of success, unless the social and economic factors of the problem are carefully weighed. It is hoped that a strong committee in close touch with Indian life and comprising representatives of the nursing institutions and of the medical profession, both official and non-official, may be in a position to make practical recommendations regarding the measures required to foster and encourage the adoption of trained nursing as a profession by Indian ladies of higher social status than the majority of those who have hitherto made nursing their career.

Government have therefore decided to appoint a committee to report on the whole question, consisting of the following ladies and gentlemen who have kindly agreed to serve :—

1. Mr. R. Langford James, M.L.C. (*President.*)
2. Sir Ashutosh Chaudhuri, M.L.C.
3. Rai Bahadur Radha Charan Pal, M.L.C.

**Hooghly.**

is hereby notified, for general information, that the scheme submitted by the Commissioners of the Howrah Municipality for extending its waterworks jetty intake at Serampore, in the district of Hooghly, has been approved by the Government of Bengal (Ministry of Local Self-Government) and that the particulars of the said scheme are as follows :—

(a) This scheme provides for the construction of short jetty close to Dey's Ghat, and a surface well by the side of the existing suction pipe jetty in front of the waterworks. Water will gravitate from Dey's Ghat to the new surface well at the existing jetty through the 24" diameter steel pipes and the existing low lift suction pipe will be connected to the new surface well. In this way it is hoped to augment the supply of water available at low tides and so counteract the effects of the *chur* which forms every year in the river bed close to the end of the suction pipe jetty.

(b) The estimated cost of the scheme is Rs. 36,334.

(c) The sum of Rs. 36,334 on account of the cost of the scheme will be met from a loan of Rs. 36,334 from Government.

(d) The loan of Rs. 36,334 bearing interest at 7 per cent. will be repaid in 40 equal half-yearly instalments of Rs. 1,701-6-9 only.

9. The said scheme will be taken into consideration on or after the 19th September 1922 and any objections or suggestions with regard thereto which may be received by the undersigned through the District Officer before that date will be duly considered.

## DEPARTMENT OF AGRICULTURE, BENGAL.

### Preliminary Forecast of the Jute Crop in Bengal, 1922.

(Note.—On an average of the five years ending 1920-21, the area under jute to which this forecast relates represents 88·2 per cent. of the total area under jute in British India.)

The present forecast deals only with the estimates of area sown and the present condition of the crop based on information received through the agency of the panchayats, as in previous years.

**Area sown.**—The district returns show a total area sown of 1,220,548 acres, being a decrease of 108,642 acres, or about 8 per cent. over the final figures for 1921. The decrease may be attributed almost entirely to drought at the sowing season and in a minor degree also to the low price obtained for the three preceding crops; and to the comparatively high price of food-stuffs which may have induced some cultivators to grow more paddy in place of jute.

**Character of the season.**—The outstanding feature of the season was the unusually long spell of drought which extended during the period, November, 1921, to the end of May, 1922. In this connection it may be noted that except in February and March, 1909, such conditions have not prevailed before in the Presidency during the past twenty years and the drought in April and May was unprecedented in East Bengal. In the months of January and February, there was practically no rain in the eastern districts. Preparatory tillage in consequence proceeded very slowly during these two months. In North Bengal, on the other hand, scanty rainfall, combined with existing soil-moisture, helped operations a good deal. The rainfall in the latter part of March, however, slightly improved the situation for sowings on low land in parts of East Bengal, but the showers were very scattered and uneven in distribution. In the important district of Mymensingh sowings were practically at a standstill at this stage over wide areas. In North Bengal, the weather conditions were generally favourable for sowings on low lands. The rainfall in April was about half the normal almost throughout the Presidency. The early sown crop on low lands in East and in parts of North Bengal became stunted in growth and was so much affected in places owing to drought that a large area had to be resown during this month. The sowings on high lands also commenced, but the progress was suspended for a while. The rainfall in May was moderate and high land sowings proceeded briskly during the course of and especially towards the end of the month. In the western districts sowings commenced somewhat late and continued up till the latter part of June, when heavy rain caused water-logging on low lands and some damage to young plants in places. As a result of these late sowings complete returns have not been obtained from some of the Western Bengal districts and a slight increase in area may be indicated in the next forecast when revision takes place.

**Present state of the crop.**—Since the monsoon arrived in the latter part of May conditions have been favourable in the more important jute districts and the crop has come on in a somewhat remarkable manner. The low land crop has been fortunate owing to the fact that the rivers have remained much lower than usual and consequently the crop in these areas, although late sown, has had time to grow. Present conditions indicate that at least a fair crop can now be anticipated.

**Stock in hand.**—Very little old stocks now appear to be held in the districts.

*Director of Agriculture, Bengal.*

## APPENDIX I.

## Preliminary Jute Forecast of 1922.

DISTRICT.	ESTIMATED AREA UNDER JUTE.		Whether much, little or no jute remains in the district from the crop of 1921.	Date by which the sowing of the crop generally commenced this year, and whether the date was early, normal or late.	REMARKS BY DISTRICT OFFICERS.
	Last year. (Final figures.)	This year.			
	Acres.	Acres.			
24 Parganas	24,178	26,213	Little ... ..	Middle of May; normal.	The increase in area is due to rise in price of jute and to partial failure of sugarcane crop. The weather was not favourable at sowing time owing to drought, but the recent rain has improved the condition of the crop although continuous rain for some time hindering the weeding operation to some extent.
Nadia	33,191	25,849	Do. ... ..	Chandanga—beginning of May; normal. Eschsch—first week of June; late.	The decrease in area is due to drought at sowing time and low price of jute in the preceding years. The weather was not favourable at sowing time and during the period of growth, but subsequently the conditions have generally improved. About 10 per cent of the crop has been damaged in the Meherpur subdivision by drought.
Murshidabad	6,514	4,333*	About a quarter of last year's jute.	First week of June; late.	The decrease in area is due to late rainfall. The weather has not been very favourable owing to excessive rain.
Jessore	43,579	29,326*	Little ... ..	End of May; late	The decrease in area is due to drought and to low price. The weather was not favourable at the beginning. Subsequently the crop improved although some damage was done by heavy showers.
Khulna	4,911	6,991*	Do. ... ..	Last week of May to first week of June; late.	The weather has not been generally favourable.
Durdwan	1,342	1,300*	Do. ... ..	Beginning of May	The decrease in area is due to want of rainfall at sowing time. The weather has not been generally favourable for cultivation of the crop.
Midnapore	5,311	2,544	Much ... ..	June; late	The decrease in area is due to the fact that there was no rain during the normal time of sowing. Subsequently, however, has helped the sowing operations to some extent.
Hooghly	18,993	18,033*	A little ... ..	Beginning of June; very late.	The decrease in area is mainly due to drought at sowing time. At the beginning the weather was unfavourable owing to drought and subsequently to heavy rain which damaged the crop in the Sadar subdivision to the extent of two annas and also partly in other subdivisions.
		4,103*	Little ... ..	Beginning of June; late.	Continued drought till June and excessive rain since has hindered the field operations. Hence the decrease in the area sown. A good deal of damage has been done to the crop by flood.
Rajshahi		49,270	Do. ... ..	Latter part of May; late	The weather was not favourable at sowing time. Subsequent rainfall has benefited the growth of the crop.
Dinajpur		117	Do. ... ..	May; late	The decrease in area is due to low prices.
Jalpaiguri	28,439	24,742	Very little ... ..	Middle of April; normal.	The increase in area is due to expectation of a better price this year. The weather has been favourable.
Darjeeling	1,435	1,838	Little ... ..	April; rather late	The increase in area is due to high price subsequently obtained by the cultivators. The weather has been favourable on the whole and the growth of the crop good. The present condition is good.
Rangpur	138,266	164,339	None ... ..	Sadar and Nilphamari—March. Kurigram and Gaibandha—April; normal.	The increase in area is due to the high price obtained in the latter part of the last financial year and also to the fact that the cultivators have found that they had no need to wait by giving up the cultivation of the crop. The weather was unfavourable at sowing time owing to drought which retarded the germination especially of the early sown crop. Subsequent rains have been very favourable and have more than made up for the bad effects of drought.
Bogra	30,860	45,230	Little ... ..	May; late	The decrease in area is due to drought at sowing time and low price. The recent rainfall has helped the growth of crop. The present condition is not promising.
		70,000*	None ... ..	Latter part of April; late.	The condition of the crop has very much improved by rainfall of June and prospects are much brighter than what was anticipated at first.

\* Returns incomplete.

District.	Area under Jute in acres.		Weather much better or no less damage to the crop than the crop of 1900.	Date by which the sowing of the crop generally commenced this year, and whether the date was early, normal or late.	REMARKS BY DISTRICT OFFICERS.
	Last year (1900).	This year.			
1	2	3	4	5	6
Almora	Acres. 7,370	Acres. 7,500*	A little (about two annas).	May and June	The increase in area is due to transfer of certain area from Muradabad district. The weather has not been favourable.
Almora	140,000	139,819	A little	April and May; late	The decrease in area is due to the low price of jute and a prolonged drought from October to April. Heavy rain in the latter part of May proved beneficial to the growth of the crop and its present condition is good.
Amritsar	325,394	296,094	Half to one anna	End of April; late	Low price of jute last year together with the continued drought at the sowing season was responsible for the shrinkage in area. At sowing time, the prospects were not at all favourable. The alternate sunshine and rain that set in June however, improved the prospects a good deal. The weather is now extremely favourable. The crop was slightly damaged by drought.
Amritsar	143,000	89,000	Practically nil	About middle of May; too late.	The decrease in area is due to continued drought and to high price of rice and low price of jute. The weather has been quite unfavourable. Late sowing and heavy rain during June have affected the growth of the crop.
Bakerganj	19,418	4,840	Much	April and May; late	The decrease in area is due to unfavourable weather at the sowing season and to low price of jute last year. There was no rainfall from January to March. The rainfall in April and May too was scanty. The crop was, therefore, sown late in season. The heavy continuous rainfall in June has made the weeding difficult and also retarded the growth of the crop.
Bhatnagar	300	300	-----	Last week of May; late.	The weather has been reasonable and the growth of the crop good.
Bhatnagar	150,000	150,000	About two annas	Middle of April, late	The weather was unfavourable at the start owing to drought but the rainfall since June has been sufficient and has improved the growth of the crop. The present condition is good.
Bombay	7,347	8,159	About one anna	Early in March	The weather has not been favourable owing to continued drought at the sowing season.
Total for Bengal	1,316,643	1,178,141			
Add—for Cooch Behar	12,147	22,344	A little	Last part of March; normal.	The weather has been favourable and the present condition of the crop is good. The crop was damaged to some extent by the heavy rain which fell in the districts in May.

# DEPARTMENT OF AGRICULTURE, BIHAR AND ORISSA.

## Preliminary forecast of the jute crop of Bihar and Orissa, 1922.

(Note.—On an average of the five years ending 1919-20, the area under jute to which the Bihar and Orissa forecast relates represents about 7.0 per cent. of the total area under jute in British India.)

The present forecast deals only with the estimated area sown. It gives also a general survey of prospects, but makes no reference to the probable outturn either in percentage, figures or in bales.

**2. Acreage.**—The estimated area sown during the current and four preceding years in round numbers is given below:—

Year.					Acreage.
1918	...	...	...	...	149,800
1919	...	...	...	...	203,400
1920	...	...	...	...	178,800
1921	...	...	...	...	108,400
1922	...	...	...	...	144,600

**3. Weather conditions.**—In March, there was no rain in the jute districts, except very light showers in Cuttack. In April and May the rainfall was below the normal everywhere. The rainfall in June was above the normal everywhere and it was very heavy in the Santal Parganas.

**4. District returns.**—The total area under jute, as reported by the District Officers is estimated in round numbers at 144,600 acres, as compared with 106,400 acres as shown in the corresponding forecast of last year and against 108,400 acres reported in the final forecast of last year. The increase in area sown this year is mainly in Purnea, where it is attributed to the rise in the price of jute.

**5. Condition and prospects.**—The condition of the crop is on the whole fair.

**6. General.**—The quantity of jute which remains in the jute districts from the crop of 1921 is reported to be little.

The statement below compares the area under jute in this Province this year with the preliminary and final figures of last year:—

The weather and rainfall have been very favourable for the growth of the crop in the Sadar subdivision. They have been some extent favourably now owing to recent rainfall in the Sadar subdivision. The sowing of the crop is fair. The date of sowing was normal and has been completed. The crop is expected to be better than normal.
	Muzaffarpur	1 942,324	1 627 000	1,920	2 095	1 625	A little jute remains in the district.	April (normal)	The prospect of the crop is good.

	Patna	2 136 152	1 694,400	191 400	85,000	122 000	Little	April (normal)	The increase in the area of this crop is due to the rise in price of jute. The weather is favourable and the sowing of the crop is expected to be fair.
Orissa	Santal Parganas	3 420 100	1 717 900	2 000	108	600	Little	First week of June (late)	The decrease in the area is due to want of rain at the time of sowing. The condition of the crop is not so good as in the case of sowing.
	Cuttack	2 240 307	1 223 500	1,800	18 600	16 000	Very little	First week of May (late)	The weather and rainfall have been generally favourable for the growth of the crop. The sowing of the crop is fair. Some delay has been observed and sowing is going on in some parts. A slight decrease in area this year is due to want of rain in the earlier part of the season which interfered to some extent with the preparation of land for the crop. The area under the crop is likely to increase hereafter.
	Balasore	1,212 621	912 200	2 400	1 700	2,100	Very little	First week of June	The weather was not favourable and there was no rain up to the latter part of May. The sowing of the crop is fair. Some delay has been observed and sowing is still going on. The price of jute is falling and the crop is having sufficient footwork. Larger area is sown with it instead of kharif crops.

## DEPARTMENT OF LAND RECORDS AND AGRICULTURE, ASSAM.

### Preliminary forecast of the jute crop in Assam, 1922.

NOTE.—On the average of the five years ending 1919 the area under jute in Assam represent some 3.0 per cent. of the total area under jute in British India.

1. **Character of the season.**—The spring was unusually dry and was unfavourable to sowing and early growth, but the weather improved subsequently and present prospects are on the whole good.

2. **Area sown.**—The total area under jute is estimated to be 91,400 acres against 80,800 acres in last year. The increase represents mainly a return to more normal conditions of the market.

3. **Stock.**—As reported, little jute remains from last year except in Goalpara.

**RESOLUTION REGARDING THE REVISION OF THE  
PAY OF MINISTERIAL OFFICERS IN BENGAL.**

**GOVERNMENT OF BENGAL.**

**FINANCE DEPARTMENT.**

**Finance.**

CALCUTTA, THE 17TH JULY 1922.

**RESOLUTION—No. 10278F.**

**READ—**

The Report of the Committee appointed to advise on the revision of the pay of the ministerial officers and menials in Bengal and the Note of Dissent recorded by Rai Mahendra Chandra Mitra Bahadur.

In the Finance Department Resolution No. 13371F., dated 22nd August 1921, the orders of Government were recorded regarding the revision of pay of menials in Bengal. The present Resolution deals with the revision of the pay of ministerial officers serving under the Local Government.

2. On the recommendation of this Government the Government of India sanctioned *ad interim* allowances to ministerial officers in this Presidency on account of the high cost of living, with effect from 1st April 1920, the war allowances granted to officers drawing not more than Rs. 50 per mensem ceasing from that date. This was, however, only a temporary measure, and in the opinion of Government the changed conditions after the war rendered a permanent re-adjustment of salaries necessary, and, with this object in view, a Committee was appointed in November 1920 to advise on the revision, in reference to modern economic conditions, of the pay of the permanent ministerial and menial establishments in Bengal. The report submitted by the Committee as well as the Note of Dissent have been carefully considered by Government. The proposals in the Note of Dissent entail an expenditure 56 per cent. in excess of that recommended in the main report. The recommendations in the Note of Dissent are based on an estimate of the increase in the cost of living which Government believe to be erroneous, and they do not allow for the very great improvement in the pay of the present incumbents which will result by the counting of past service on the new time-scales. In those circumstances the Governor in Council has been unable, especially in view of the present financial position of the province, to adopt the Minority Report, as recommended by the Legislative Council, or to accept any scheme of revision more costly than that outlined in the Majority Report, the recommendations of which have been adhered to in the main in determining the revised scales of pay to be granted to the ministerial officers.

3. The proposals set forth in the first 113 pages of the Majority Report, so far as they relate to the provincial establishments, have now been sanctioned by the Government of India, subject to the modifications indicated in column 10 of the statements attached herewith, as well as in paragraphs 4 and 5 below.

4. The new rates of pay will take effect from 1st January 1922, and the *ad interim* allowances will cease from that date. In the event of a material reduction in the cost of living the rates of pay in force will come under further consideration and will be liable to such reduction as may appear necessary in the interest of economical administration.

5. The following general principles should be observed in bringing officers on to the new time-scales :—

- (a) Officers who are brought on to a time-scale will be permitted to count all continuous temporary, probationary, acting or substantive *pro tempore* service in a corresponding post, followed by confirmation, as if it were service on the new time-scale, and to draw pay at the point which they would have reached upon this hypothesis, provided that a deduction of one year shall be made from the total service thus calculated.
- (b) An officer who originally entered on any of the appointments which are now put on a time-scale at a pay higher than the lowest of those appointments will draw an initial pay not less than that of the officer next below him in the present grade who entered on the lowest pay.
- (c) An officer whose promotion has been accelerated for good work will draw on the time-scale the same initial pay as the officer next below him.
- (d) An officer who has been degraded or punished by having his promotion permanently retarded will draw the same pay as the officer next above him.
- (e) Officers whose initial pay fixed according to the above principles is less than the pay, plus *ad interim* allowance which they were drawing on 1st January 1922, should be allowed to start in the new scale at a point equal to that sum, or, if there be no such point, at the next higher point in the scale.
- (f) Loss of acting allowance as well as *ad interim* allowance calculated on acting allowance should be taken into consideration, and a personal allowance granted to make good the loss, with the sanction of Government.
- (g) Future increments of officers brought from progressive to time-scales should be allowed from the dates on which increments would have accrued in their old scales.
- (h) Subject to the proviso that no officer will draw less than the minimum of the new scale or more than the maximum, the initial pay must not exceed the substantive, provisionally substantive, or substantive *pro tempore* pay plus temporary allowances drawn on the 1st January 1922 by more than—
  - (1) Forty per cent. in the case of those drawing pay of not more than Rs. 100 on that date.
  - (2) Thirty per cent. in the case of those drawing pay from Rs. 101 to Rs. 200 on that date.
  - (3) Twenty per cent. in the case of those drawing pay more than Rs. 200 on that date,
 with necessary adjustments at points, where percentages change, to avoid anomaly of treatment.
- (i) Individual cases not covered by the above rules should be referred specifically for the orders of Government.

6. There is no necessity to place a second efficiency bar at the 18th year of service as recommended in paragraph 9 of the Report. In the case of officers in whose scales of pay efficiency bars have been prescribed, the head of the office will in each case decide whether an officer should be considered to have passed the efficiency bar, and will make such a declaration in the bill in which his pay is next drawn.

7. The Fundamental Rules regulating acting promotion and the calculation of acting allowances will apply with effect from 1st January 1922 to all the services included in the present scheme of revision. In giving retrospective effect to the new rates of pay, deductions should be made on account of *ad interim*, and acting allowances already drawn under the old rules for the period from the 1st January 1922.

**ORDER.**—The Resolution be published in the *Calcutta Gazette*, and a copy be forwarded to the Secretary to the Board of Revenue, Bengal ; Director of Public Instruction, Bengal ; Surgeon-General with the Government of Bengal ; Inspector-General of Police, Bengal ; Inspector-General of Prisons, Bengal ; Superintending Engineers ; Commissioners of Divisions ; District and Sessions Judges ; Conservator of Forests, Bengal ; Commissioner of Excise and Salt, Bengal ; Director of Agriculture, Bengal ; Director of Land Records, Bengal ; Advocate-General, Bengal ; Director of Public Health, Bengal ; Inspector-General of Registration, Bengal ; Commissioner of Police, Calcutta ; District Officers ; Superintendent and Remembrancer of Legal Affairs, Bengal ; Chief Judge, Small Cause Court, Calcutta ; Private Secretary to the Governor of Bengal ; Military Secretary to the Governor of Bengal ; Administrator-General and Official Trustee, Bengal ; Registrar of Co-operative Societies, Bengal ; Director of Surveys, Bengal ; Chief Presidency Magistrate, Calcutta ; Chief Engineer, Public Health Department, Bengal ; Port Officer, Chittagong ; Superintendent, Royal Botanic Garden, Calcutta ; Agent for Government Consignments, Bengal ; Director of Fisheries, Bengal ; Superintendent, Chittagong Hill Tracts ; Veterinary Adviser to the Government of Bengal ; Municipal Magistrate, Calcutta ; Superintendent, Government Printing, Bengal ; Director of Industries, Bengal ; Accountant-General, Bengal, and to all departments of this Government, including the Accounts Department, for information.

8	9	10	11
Rs. A.	Rs. A.		
16,152 0	2,972 0	Prior to 1918 the pay of the Officer-in-charge was the same as that of the Superintendent, Legislative Department, and it should now be fixed at the same figure also, viz., Rs. 200—10—300, which is the pay proposed for the latter post.	The figure 5 put in column 4 of the statement in the report against the scale of Rs. 40—4—50 is a misprint for 6.
46,258 0	11,288 0	The present Keeper of Records is on Rs. 300—25—400, but the permanent pay of the post is Rs. 300—10—400. The former scale has been included in the figure for present cost.	
18,268 0	4,588 0		
16,764 0	6,404 0	The pay of the confidential assistant should be fixed with reference to the qualifications and previous pay of the incumbent for the time being. A scale of Rs. 350—15—500 may be accepted as personal to the present incumbent; the pay of the post to be reconsidered when he vacates it.	
13,625 0	4,880 0	As it is desirable to bring the Superintendents in this office and in the Private Secretary to the Governor's office into line, the same scale of pay as proposed for the latter has been adopted for the former.	
53,026 0	15,805 7	The figures for present cost and the proposed cost under Government's proposals include a post of a draftsman on Rs. 100—5—125 in the Drawing Branch of the Public Works Department omitted by the Committee. For the present incumbent of this post a scale of Rs. 125—5—165 is proposed. Future incumbents should, however, get the ordinary scale of Rs. 50—5—165. As regards the post outside the cadre of the Finance Department, as the present treasurer is now getting Rs. 200 as pay + Rs. 40 as personal allowance + Rs. 36 as <i>ad interim</i> allowance, which is more than Rs. 270, the maximum proposed by the Committee, this Government propose for him only a scale of Rs. 470—10—300, the future incumbents being put on the scale of Rs. 170—10—270 as proposed by the Committee.	A part of this establishment belonging to the Roads and Buildings Branch of the Public Works Department is a transferred department.

Ra.	Ra. A.		
57,635	6,235 0	As it is not desirable to include the accountant now on Rs. 100—5—150 in the general scale proposed for ordinary assistant, this Government recommend for him a separate scale of Rs. 125—10—225, which has also been proposed for Upper Division assistants in offices of Deputy Inspectors-General of Police.	
20,340 0	1,800 0		
97,340 7	18,638 7	Although the standard percentage increase does not warrant it, in view of the technical nature of his work, the head assistant in the Director's office establishment may be given a scale of Rs. 150—10—250 in place of Rs. 150—10—200 proposed by the majority. The present incumbent of the post of book-binder in the record section of the Drawing Office may be allowed to draw Rs. 21 per mensem.	
34,300 0	2,280 0		
12,360 0	3,240 0		
28,980 0	4,341 0	Including an extra post of Superintendent-accountant on Rs. 250—10—300 in whose case no change is recommended and another post of typist on Rs. 30 for whom the general scale of Rs. 45—1—70 is proposed.	
11,706 6	4,896 6	The figure for present cost includes an extra clerk on Rs. 30 per mensem and a warrant bailiff on Rs. 15 per mensem. Under Government's proposals they have been put on Rs. 40—40—45—1—100 and Rs. 20—1—32, respectively.	
46,832 0	16,817 0	As the post of Registrar is being held by a Sub-Deputy Collector for the last 14 years and its pay is being separately revised, it has been left out of present consideration.	
1,00,937 3	29,646 3	A separate scale of Rs. 80—4—120 is proposed for the checking writer now on Rs. 75. The two probationers on Rs. 15 each, included by the Committee in the Upper Division, have been transferred to the Lower Division.

Ra. A. 77,670 0	Ra. A. 23,544 0	The pay of wards' head clerks in Western Bengal is Ra. 80 and not Ra. 125 as shown in the report. The calculations have been revised throughout accordingly. In view of the increase given to sherishtadars and Superintendents in three district offices, the rate for sherishtadars (3) and Revenue or Judicial assistants (2), i.e., 5 posts in all, has been increased by Government to Ra. 250—15—325.	A shorthand allowance of Ra. 50 granted to the second clerk of the office of the Commissioner of the Dacca Division has not been included. This will continue to be drawn pending further consideration of the subject by Government
6,18,805 0	2,24,655 0	In Western Bengal there are four Additional Judge's sherishtadars and not three as shown in the report and instead of 11 peahkars in Eastern Bengal on Ra. 60 a month as shown in the report there are ten peahkars on Ra. 60 each and one on Ra. 70 Eight posts of Civil Court amils on Ra. 50 each have been included in the present cost For the amils on Ra. 70 and Ra. 50 the majority recommended rates of Ra. 80—4—100 and Ra. 35—35—40—2—68—1—80, respectively. In view of the fact that these men are being abolished and that no new men will be recruited in their place, a time-scale is unnecessary. Government have proposed for them rates of Ra. 100 and Ra. 75, respectively. The calculations have been revised throughout accordingly.	
5,94,703 0	1,82,873 0	In Eastern Bengal there are 4 Judicial peahkars on Ra. 70 and not 3 as shown in the report. The numbers of tauzi navis in Eastern Bengal on Ra. 80 and Ra. 70 are four and twelve, respectively, and not five and eleven as shown in the report. The post of a temporary tauzi navis on Ra. 70 in Western Bengal and two temporary posts of partition clerks in Eastern Bengal, one on Ra. 80 and the other on Ra. 70, were included in the statement in the report. The number of Khasmahal clerks on Ra. 70 in Eastern Bengal is one and not two as shown in the report, and the number of Subdivisional clerks on Ra. 80 in Eastern Bengal is six and not four as shown in the report. The present and proposed costs have been revised accordingly. The following modifications have been made by Government in the scales proposed in the report :— (i) For three posts of Superintendents (districts of the 24 Parganas, Midnapore and Mymensingh) a scale of Rs. 225—15—300 has been proposed (ii) Twenty-seven selection posts on Rs. 145—5—170 in the Upper Division have been omitted and the pay of the accountant has been proposed as follows :— (a) 5 posts on Rs. 150—5—200 each. (b) 22 posts on Rs. 125—5—175 each.	Some clerks in the district offices draw shorthand allowances in addition to their pay. They should continue to draw these pending further consideration by this Government.

## APPOINTMENT OF A COMMITTEE TO CONSIDER THE WHOLE QUESTION OF NURSING ARRANGEMENTS AT THE GOVERNMENT HOSPITALS IN CALCUTTA.

### GOVERNMENT OF BENGAL.

#### LOCAL SELF-GOVERNMENT DEPARTMENT.

Medicinal.

CALCUTTA, THE 16TH JULY 1922.

RESOLUTION—No. 1742Medl.

Minister in charge: The Hon'ble Sir S. N. Banerji, Kt.

The increasing cost of the nursing arrangements at the general hospitals of Calcutta has recently engaged the anxious consideration of Government.

The demand on provincial revenues has increased to a serious extent and the proportion of cost, which the State may fairly be asked to bear, is a matter which, in the opinion of the Minister for Local Self-Government, requires careful examination. Government have decided that it is desirable that the whole question should be the subject of thorough investigation by a strong committee representing the various interests concerned. In order to define the terms of reference of the committee which the Minister desires to appoint, it will be convenient briefly to state the existing arrangements for nursing in public hospitals and the circumstances under which they were made.

2. Prior to 1859, the nursing of patients in the Calcutta hospitals was entirely in the hands of the ward boys and untrained ayahs. The Calcutta Hospital Nurses Institution was then established, mainly through the influence of Lady Canning, for the purpose of providing women nurses for the Medical College Hospital. Its management was vested in a committee of ladies and funds were raised by private subscriptions. In 1860, the Institution extended its operations to the Presidency General Hospital, then under the Military Department, and received in return a Government grant of Rs. 200 per month.

The Institution originated in a charitable desire of European residents to provide skilled nursing for European patients. The charity was well sustained at the outset. Donations were large and expenses small; but this state of affairs did not continue long. The scope of work was extended and expenditure rapidly increased with no corresponding increase of income. Government aid was soon solicited. In 1867 this amounted to Rs. 700 per month on the understanding that a full supply of nurses was provided both for the Medical College and the Eden Hospitals where Indian patients predominate. In 1883 the grants-in-aid were raised to Rs. 15,000 per annum, which was estimated to be half the annual cost of the institution, and subsequently the Lieutenant-Governor undertook to treble the amount derived from private subscriptions subject to the maximum of Rs. 37,500. Later on, this maximum was increased to Rs. 50,000 and this arrangement continued in force until 1910 when the maximum was raised to Rs. 75,000, with the further understanding that if this subsidy failed during the following three years to establish an equilibrium, the deficit would be made good by Government, although it was expressly stated that the sum of Rs. 75,000 should be regarded as normally the maximum, which the State could be expected to contribute. This arrangement was subsequently extended for a further period. For the next few years, no serious deficit occurred, while the war bonus fund raised during war, enabled the Committee to the Institution to provide for the increasing cost of nurses. In 1915, however, there was a deficit of Rs. 10,972 and in 1919 a deficit of Rs. 17,798, and in 1920, the Committee found it necessary to ask Government to increase their annual contribution to Re. 1 lakh. Again in 1921, Government were compelled to make a total contribution of Rs. 1½ lakhs to enable the Institution to pay its way. In the current supplementary estimates (1922-23) Government has made provision for the payment of Rs. 1½ lakhs, while the Committee are of opinion that their sources of income must be supplemented by a Government contribution of at least Rs. 1½ lakhs to enable their work to continue on the present scale.

The increasing expenditure is in part due to hospital extensions and in part to the fact that it has been found necessary to improve the pay of nurses by consolidating their temporary war bonus with salary. Further additional staff will be necessary for the new Eye Hospital which will probably be opened in September next, while the proposed extension of the Eden Hospital—at present the only Maternity Home in Calcutta under Government control—will also involve the appointment of new staff.

In 1914 the expenditure of the Institution amounted to Rs. 2,04,365; in 1921 the expenditure had risen to Rs. 3,00,309. In that year the following contributions were obtained from non-Government sources, viz. :—

	Rs.
Calcutta Corporation	20,000
Maniktila Municipality	300
Cossipore-Chitpur Municipality	200
Woodburn Ward fees	15,766
Hospital Port Dues Fund	13,335
Offeratories and entertainments	4,769
Out-Nursing fees	19,229
Private subscriptions	67,770

The balance sheet showed a total deficit of Rs. 49,559 which was made good by a special grant of Rs. 50,000, bringing Government's total contribution as already stated, up to Rs. 1½ lakhs, while the Committee report that an even larger grant will be required this year in order to produce equilibrium between income and expenditure.

3. Government fully realise the value of the work done by the Institution, and they do not overlook the fact that the increase in its expenditure due in a large measure to circumstances over which the Committee have no control. At the same time, it is essential to place the finances of the Institution on a sounder footing. Nothing could be more unsatisfactory from every point of view than the present practice of relying on provincial revenues to make up an annual deficit which shows a constant tendency to increase. There is reason to believe that this practice is responsible for a widespread feeling among local bodies and the public generally that by contributing to the funds of the Institution, they are merely relieving Government of a burden which Government can and ought to bear. It is desirable that this misunderstanding should be corrected.

In England, famous general hospitals, such as St. Thomas's or Bartholomew's, are old charitable foundations which are supported on the voluntary system by subscriptions from the philanthropic public. Special hospitals—such as isolation or infectious diseases hospitals founded in more modern times—are ordinarily supported by local bodies. In Europe and America, the tendency is to make hospital expenditure a charge on the rates, and not on the revenues of the State. The Minister does not wish to press these analogies too far, and he recognises that in India, the State was compelled in earlier days to assume responsibilities of this character because local bodies had not then been created or were still in their infancy, while again the sources of private benefactions were less ample in their flow.

It is not possible for the State suddenly to divest itself of these responsibilities, and moreover a provincial contribution to the maintenance of the Calcutta hospitals can be justified on the ground that the benefits which they confer are not entirely confined to Calcutta. At the same time, there is a limit to the amount which the general taxpayer can reasonably be asked to provide for this purpose, especially in view of the straitened conditions of the provincial finances and of the heavy and increasing demands which are being made upon the public purse for objects of a more general character. If the citizens of Calcutta desire to have the benefit of skilled nursing in well-equipped hospitals, they must be prepared to contribute a reasonable part of the cost themselves. They cannot reasonably rely on Government to bear the whole of any new expenditure which may be necessary on this account.

4. The Minister has accordingly decided to appoint a Committee which, approaching the subject from this point of view, will undertake a thorough investigation of the affairs of the Institution with the object of putting its finances on a sound basis for the future. The Committee should ascertain, in the first instance, whether any savings are practicable in the existing scale of expenditure without undue sacrifice of efficiency, and they should then frame an estimate of the financial requirements of the Institution for the next five years, having regard to the absolute necessity for the strictest economy

in view of the limited resources that have hitherto been available. The Minister is provisionally of opinion that the permanent contribution from Government during that period should not exceed Rs. 1 lakh annually, and adopting this figure as a basis, the Committee should advise on the best methods of raising the balance required. They will doubtless take into consideration in this connection the adequacy or otherwise of the existing contributions from local bodies and the general public, and the measures which might be adopted for arousing an interest in the Institution among any sections of the public who do not at present contribute to its funds in proportion to the benefits which they receive. Finally, it should be considered whether any other feasible method of increasing the resources of the Institution can be devised, such as the levy of fees from those patients who can afford to pay them.

The following ladies and gentlemen, who have kindly consented to serve on the Committee, are appointed to advise on the above questions, viz. :—

The Surgeon-General (President).

Sir Nilratan Sirkar, M.A., M.D.

Mr. A. d'A. Willis (President of the Calcutta Hospital Nurses Institution).

3. Government of Bengal, Finance Department, letter No. 2386F., dated the 6th April 1916 and Government of Bengal, Public Works Department, letter No. 2757E., dated the 27th September 1919.

THE Zilladars employed in the Revenue Division, Midnapore Canal, having represented to Government the difficulty they have to experience owing to general rise in price of foodstuffs and asked for an increase of pay compatible with that sanctioned to other similar services, the question was carefully considered by Government and the Governor in Council is pleased to sanction, with effect from the 1st April 1922, the introduction of a time-scale of pay, viz., Rs. 60—3—30—4—150, with efficiency bar at Rs. 90, in place of the existing grades of Rs. 50, 75 and 100.

2. Increments will be given for approved service only. An increment which will carry a zilladar over the efficiency bar will require the sanction of the Local Government; subsequent increments may be drawn on the dates they fall due provided no order has been passed withholding an increment.

3. The zilladar who may be placed in charge of the Revenue Division will, as hitherto, be designated as Circle officer, and will be entitled to a duty allowance of Rs. 75 per mensem.

**MONTHLY WEATHER AND CROP REPORT ON RAINFALL FOR JUNE 1922.**

I. **Character of the season.**—During the month under review the rain fall was heavy, being much in excess of the normal throughout the Province. The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—The preparation of lands for winter paddy and for transplantation proceeded under favourable weather conditions. The sowing of jute was still in progress in parts of West Bengal. Heavy rain caused some damage to the winter paddy seedlings and to young jute plants in certain low lying tracts of West Bengal.

III. **State of standing crops.**—The condition of sugarcane, autumn paddy and other standing crops was reported to be fair, on the whole, although some damage had been caused by drought in the preceding months.

IV. **Prospects and probable outcome.**—The prospects of autumn paddy were reported to be not hopeful, but those of deep-water winter paddy and jute were considerably improved by the recent rainfall.

V. **Damage to standing crops.**—The heavy rainfall caused some damage to the standing crops in certain low lying tracts of West Bengal.

VI. **Condition of agricultural stock.**—The condition of live stock was, on the whole, fair. Stray cases of cattle-disease were, however, reported from the parts of the 24-Parganas, Murshidabad, Nadia, Khulna, Hooghly, Darjeeling, Rangpur, Bogra, Mymensingh, Faridpur, Tipperah, Noakhali and Tripura State.

VII. **Failure of pasturage and fodder.**—Scarcity of fodder was reported only from parts of Murshidabad and Birbhum.

VIII. **Prices of food-grains.**—During the second-half of the month the price of common rice of the cheapest quality rose in eleven districts, fell in two and remained stationary in the rest of the Province. The price varied from 5 seers 8 chittaks per rupee at Chittagong Hill Tracts to 8 seers at Rangpur.

IX. **Condition of agricultural people.**—The condition of the agricultural population was fair.

In exercise of the power conferred by section 10 of the Indian Merchant Shipping Act, 1859 (1 of 1859), and with the previous sanction of the Governor-General in Council, the Governor in Council is pleased to make, in suppression of the previous rules on the subject, the following rules for the conduct of examinations for masters and mates of foreign-going ships and home-trade ships and regarding the qualifications to be required.

H. E. SPRY,

*Secretary*

*to the Government of Bengal (Offg).*

REGULATIONS RELATING TO THE EXAMINATION OF  
MASTERS AND MATES.

## CHAPTER I.

## GENERAL RULES.

1. **Authority for Regulations.**—These regulations are issued in pursuance of Act I of 1859, as amended by Act V of 1883.

By sections 9 and 10 of that Act provision is made for holding examinations for the grant of certificates of competency and power is given to the Local Government with the sanction of the Governor-General of India in Council to make rules for the conduct of such examinations and the qualifications of the applicants.

In accordance with section 13 of the same Act no foreign-going ship\* or home-trade ship\* of a burden exceeding 300 tons is allowed to go to sea from any port in India, unless the master and one officer besides the master have obtained and possess valid and appropriate certificates either of competency or service under that Act or under the Merchant Shipping Act, 1894, and whoever, having been engaged to serve as Master or Mate, goes to sea as aforesaid as such Master or Mate, without being at the time entitled to and possessed of such a certificate, and whoever employs any person as such Master or Mate without ascertaining that he is at the time entitled to and possessed of such certificate is, for each such offence, liable to a penalty of Rs. 500.

For rules for the examination of candidates for certificates of competency as Master and Mate of home-trade sailing-vessels exceeding 300 tons, but not exceeding 1,000 tons burden, see the rules in Appendix N.

2. **Examination of Former Enemy Aliens.**—No "former enemy alien" may be examined for a certificate of competency of any grade.

The expression "former enemy alien" means an alien who is a subject or citizen of the German Empire or any component state thereof, or of Austria, Hungary, Bulgaria, or Turkey, or who, having at any time been such subject or citizen, has not changed his allegiance as the result of the recognition of new states or territorial rearrangements or been naturalised in any other foreign state or in any British Possession in accordance with the laws thereof, and when actually resident therein and does not retain according to the law of his state of origin the nationality of that state.

3. **Examination of Aliens.**—No alien may be examined for a certificate of competency as Master or First Mate in the Foreign or Home or Coasting Trade unless he has

\* "Foreign-going ship" includes every ship employed in trading between any port of the territories which are or may become vested in His Majesty by the Statutes 21 and 22 Vic., c. 106, entitled "An Act for the Better Government of India," and any port or place not in the said territories, nor on the Continent of India, nor in the Straits Settlements, nor in the Island of Ceylon; and "Home Trade Ship" includes every ship employed in trading between any ports of the said territories, or between any port of the said territories and any port or place on the Continent of India or in the Straits Settlements or in the Island of Ceylon.

acted as a Master, Chief Officer or Chief Engineer of a British ship or as Skipper or Second Hand of a British fishing boat at any time during the War, and is certified by the Admiralty to have performed good and faithful service in that capacity.

**4. Time and place of examinations.**—The times and places at which examinations are held are shown in Appendix A.

**5. How to apply.**—Candidates for examination must fill up a form of application (Form Exn. 2) at the Port Office. The form, properly filled in, together with the candidate's testimonials and discharges, must be lodged with the Port Officer, Calcutta, not later than the day before the day of examination; and the candidate must conform to any regulations in this respect which may be laid down by the Local Government. The discharges and testimonials should be handed in, together with the form of application, as many days as possible before the date of the examination which the candidate desires to attend. In the absence of the necessary verification the candidate cannot be examined.

The Examiner should be particularly careful to ascertain that there are no gaps in the candidate's service which are not properly accounted for, before he is allowed up for examination.

**6. Proof of Nationality.**—Every candidate for a certificate of competency of any grade will be required to produce proof of nationality. Proof of British nationality will, in ordinary circumstances, involve the production of a birth certificate or of a certificate of naturalisation. If an applicant for examination cannot produce such certificate he should be asked to furnish such documentary evidence of nationality, or of birth and nationality of parents, as he may be able to obtain, and, if necessary, the case should be referred to Government for consideration.

If the applicant is not a British subject, he will, as a rule, be able to produce some official document testifying to his nationality. If there is any doubt as to the authenticity of such document, the Port Officer should consult the nearest consular officer of the nation to which the applicant belongs. If necessary, the case should be referred to Government for consideration.

**7. How to apply in special cases.**—In cases where a candidate is in doubt whether his service complies with the Regulations, and wishes to submit his case for special consideration, all certificates, discharges, and testimonials, together with the form of application,\* properly filled in, should be submitted to the Port Officer. If necessary, the officer will, after seeing that all the required information is clearly set forth in the papers, forward them with his observations to the Local Government for decision.

**8. Inquiries.**—All other inquiries regarding examinations should be made and dealt with in the same way. The point on which information is sought should be clearly stated, and certificates, discharges, testimonials, etc., should always be forwarded with the inquiry.

**9. Nature of service determined by actual position on board ship.**—Sea service, in the foreign or home trade, cannot be regarded as qualifying for examination for certificates of competency unless it can be verified by reference to the articles of the ship on which it was performed, e.g., service claimed by testimonial or otherwise to have been as Mate when the actual rating as shown by the articles was only that of boatswain or other petty officer will not be accepted where officer's service is required. Where service as First (or Second) Mate is required to qualify for examination the candidate must actually have held the executive position next (or next but one) to the Master.

Candidates who represent themselves as having served in a higher capacity than that actually held in the ship render themselves liable to prosecution.

In this connection examiners should remember that it has been a common practice for officers to be rated on ship's articles as "Second Mate," although in reality they were only Third or Fourth Mates and acted in one of those positions on board ship.

In every case where a candidate for a Master's certificate of competency claims service as Second Mate, he should be requested to make a declaration in Divn. H of the Form Exn. 2\*, to the effect that during his service as Second Mate he had only one officer over him, or if more than one, that a Third and Fourth Mate were also carried.

If the service claimed is as "auxiliary Second Mate" the candidate should be required to state the number of officers serving in a junior capacity.

A candidate with First Mate's service should make a declaration that he was the senior officer under the Master, or if not, he must comply with the requirements of rule 88, as it has been found that in some cases the Second Mate has been signed on the articles as First Mate, the proper First Mate being called chief officer simply for examination purposes.

It must be clearly understood that the amount of service laid down in the Regulations for each grade of certificate of competency is the absolute minimum that can be accepted, and unless a candidate can show the full amount he must in no case be allowed up for examination.

**10. Testimonials required.**—Testimonials to character, including sobriety, and to experience and ability, on board ship for at least the last twelve months of sea service preceding the date of application to be examined, will be required of all candidates, and without producing them no person will be examined.

\*Form Exn. 2, which can be obtained at Port Office.

**11. Penalty for misconduct.**—Candidates who have neglected to join their vessels after having signed articles, or who have deserted their vessels after having joined, or who have been found guilty of gross misconduct on board, will be required to produce satisfactory proofs of two years' subsequent service and good conduct at sea, unless the Local Government, after having investigated the matter, should see fit to reduce the time.

**12. Deafness and other physical and mental disabilities.**—If during the progress of the examination the examiner finds that a candidate is afflicted with deafness, with an impediment in his speech, or with some other physical or mental infirmity, and he is satisfied upon further investigation that the degree of deafness or of the impediment or other infirmity is such as to render the candidate incompetent to discharge the ordinary duties of a Mate or Master at sea, he should not allow the candidate to complete his examination and should return his examination fee; but every case in which this action is taken must be reported to the Port Officer.

If the candidate subsequently produces a medical certificate to the effect that his hearing, speech, or physical or mental condition has improved or is normal, the Port Officer will take into consideration the question of allowing the candidate to sit again for examination.

**13. Foreigners must know English.**—Foreigners must prove to the satisfaction of the examiners that they can speak and write the English language sufficiently well to perform the duties required of them on board a British vessel. If a candidate fails for ignorance of the English language he will not be re-examined until after a lapse of six months. In the case of candidates for Home Trade certificates, the certificates of Asiatics who may not be able to speak English shall be endorsed to the effect that they are valid only for vessels manned and officered entirely by Asiatics.

**14. Issue of certificate.**—If the candidate passes he will receive a form (Form Exn. 16) authorising the Port Officer to whom it is addressed to issue the certificate. It is, therefore, important that the port at which the certificate is to be issued should be the same on both the form Exn. 16 and the Form Exn. 2. If circumstances should make any alteration necessary, the examiner should see that it is made in both forms, otherwise delay in the issue of the certificate may be caused.

**15. Service found to be insufficient.**—If after a candidate has passed the examination it is discovered on further investigation that his services are insufficient to entitle him to receive a certificate of the grade for which he has passed, the certificate will not be granted to him; but if the Local Government is satisfied that the error in the calculation of the candidate's services did not occur through any fault or wilful misrepresentation on his part, he may either have the fee returned to him or have it placed to his credit. Should his services entitle him to a certificate of a lower grade it may be granted to him, and the difference, if any, between the fee paid by him for the superior certificate and the fee payable for the inferior certificate will be returned to him or placed to his credit. The superior certificate will not be granted until the candidate has performed the amount of service in which he was deficient, and has been re-examined in all the subjects, unless the Local Government see fit to dispense with the re-examination.

**16. Failure in Examination.**—In all cases of failure the candidate must be examined anew. If a candidate fails in Seamanship he will not be re-examined until after a lapse of six months. Whether the whole or part of this period must be served at sea must depend upon the subjects in Seamanship in which the candidate failed, but the amount of further sea service to be required will be left to the discretion of the examiner.

**17. Examiner's Report.**—The examiner, in making his report on his Form Exn. 14, should state what amount, if any, of further sea service the candidate must perform, and he should also insert this information in the Form Exn. 2.

**18. Failure in Navigation.**—If a candidate fails three times in Navigation within three months, he will not be re-examined until after a lapse of three months from the date of the last failure.

**19. Candidates failing may be examined for certificate of lower grade.**—If a candidate fails in his examination for a foreign-going certificate, and the subjects in which he has failed are not included in the syllabus prescribed for a certificate of a lower grade, he may, if he so desires, be examined for the lower grade certificate without further formal application or payment of fee, but he will be required to complete the whole of the work prescribed for such lower grade.

No part, however, of the fee he has paid will be returned to him, and on presenting himself, when qualified, for re-examination for the higher certificate, he will be required to pay again the full fee for the examinations.

**20. Failure in Seamanship.**—If a candidate fails in Seamanship so far as regards the management of square-rigged sailing vessels, in his examination for an ordinary certificate, he may, if qualified as to service, without further formal application or further payment of fee proceed with the examination for a certificate of competency for foreign-going steamships, or for fore-and-aft rigged vessels.

**21. Fee always paid first.**—Candidates for examination, in making their application on Form Exn. 2, will be required to pay the examination fee before any step is taken in the way of inquiring into their services or testing their qualifications. If the candidate

is found not to be eligible the fee will either be returned to him or placed to his credit until he is eligible.

**22. Where to pay fees.**—The fee for examination must be paid to the Port Office. If a candidate offers a gratuity to any officer of the Department, he will be regarded as having committed an act of misconduct, and will be rejected, and not allowed to be again examined for twelve months either at the port where the offence was committed, or at any other port.

**23. Fee not returned on failure.**—If a candidate fails to pass the examination no part of the fee will be returned to him.

**24. Table of fees.**—The fees are as follows:—

**25. Copy of Lost Certificate.**—An applicant for a certified copy of a lost Certificate either of Competency or Service, must fill in a form of application, Exn. 23, giving the particulars required, and hand it to the Port Officer of Calcutta. A declaration as to the circumstances in which the certificate was lost must be made by the applicant before the Port Officer who will state thereon whether a fee is to be charged or not, and will forward a certified copy of the lost certificate to the applicant.

No fee will be charged if the applicant can prove that the certificate was lost through ship wreck or fire.

**26. First Aid to the Injured.**—(a) Every candidate for a Certificate of Competency of any grade as Master or Mate will be required to produce a certificate issued by the St. John's Ambulance Association, the St. Andrew's Ambulance Association, the St. Patrick's Ambulance Association, the British Red Cross Society, the London County Council, the Glamorgan County Council, the Leith Nautical College or other approved body or by a Medical Officer of one of His Majesty's ships, to the effect that he has passed examination in First Aid to the injured.

(b) The certificate must be an adult certificate, i.e., obtained by the candidate when sixteen years of age or more, and the examination for it must have been passed not more than three years before the date of the examination for the certificate of competency. Certificates issued by the St. John's Ambulance Association more than three years before the examination for a certificate of competency will, however, be accepted, provided that, at the expiration of three years since its issue, the certificate has attached to it the "Voucher" or "Label" of the Association certifying that the holder has passed re-examination in First Aid.

(c) If a candidate does not possess such a certificate of proficiency in First Aid he should apply some time before he wishes to sit for examination for a certificate as Master or Mate to the local secretary of one of the approved Associations, who will inform him of the available facilities for the instruction and examination of candidates in First Aid. A list of the names and addresses of the local secretaries of the Associations is given in Appendix C.

(d) Besides the courses of instruction which are provided on shore at the ports in the United Kingdom, at which examinations for certificates as Master and Mate are held courses of instruction given by qualified surgeons on board merchant vessels will be accepted by the St. John's Ambulance Association as qualifying the candidate for examination for their certificate of proficiency in First Aid, provided the surgeon certifies that he has followed the syllabus of instruction laid down by the Association.

(e) The St. Andrew's Ambulance Association will also accept instruction by a ship's surgeon on board ship as qualifying a candidate for examination for their certificate of proficiency in First Aid, provided their syllabus is followed. In this case the candidate must previously have enrolled and obtained an attendance card, by applying to the local secretary of the Association, or to the head office at 176, West Regent Street, Glasgow.

(f) It will not be necessary for the candidate for a certificate as master or mate in all cases to produce the formal certificate of proficiency in First Aid issued by the Associations. In order to prevent delay in proceeding with the examination for the certificate as Master or Mate and in the issue of the certificate to successful candidates, the special Mercantile Marine linen certificate issued by the St. John's Ambulance Association and duly signed by the Lecturer, the Surgeon Examiner, and the Association's local representative, or, in Scotland, a certificate signed by the Local Examiner of the St. Andrew's Ambulance Association, to the effect that the candidate has passed the examination for a certificate of proficiency, may be accepted as showing that the candidate possesses the required knowledge of First Aid.

27. **Sight tests.**—(a) Every candidate for a certificate of competency must pass the prescribed sight tests before a certificate can be issued to him. If circumstances render it necessary for him to proceed with the examination in navigation and seamanship before undergoing the sight tests, he should be informed that the examination in navigation and seamanship will be cancelled in the event of his failure to pass either of the sight tests.

(b) **Form vision test.**—Every candidate for a certificate must pass the form vision test. If he obtained a certificate of competency before January 1st, 1914, he will only be required to possess half normal vision using both eyes together. Otherwise he must pass a higher standard, viz., normal vision using both eyes or either eye separately.

Any candidate who has obtained his first certificate under these conditions may obtain his higher certificates, provided that he has normal vision using both eyes or either eye separately.

Detailed information with regard to the conduct of the examination and the standards required is contained in Appendix I.

(c) **Colour vision test.**—Every candidate must undergo the colour vision test on every occasion on which he presents himself for examination for his first certificate of competency; but, if he then passes, he will not be required to undergo the colour vision tests on any subsequent occasion.

No person who holds a certificate of competency should be examined in colour vision.

(d) A candidate who fails to pass the prescribed form vision test may present himself for re-examination at intervals of three months. A candidate who fails to pass the colour vision test cannot be re-examined. In the case of a candidate who is referred for further examination the Port Officer will make arrangements for a special examination. It is also open to any candidate who is adjudged to have failed in the colour vision test to appeal to the Local Government, who may, if they think fit, remit the case to a special body of examiners for decision.

(e) The Local Government will repay, at a rate which will be notified to the candidate, the travelling expenses of and candidate who is referred for further examination, as well as the travelling expenses of any candidate who, having appealed against failure, is reported by the special examiners to have passed. No payment whatever will be made towards the expenses of candidates who, upon their own application, are examined by the Special Examiners, and are reported by them to have failed, unless the Local Government consider that the particular circumstances of the case justify such payment.

(f) When a candidate fails to pass the colour vision test, the examiner will point out to him the conditions under which he can appeal. Appeals are to be made through the Port Officer, and forwarded to Local Government with the Examiner's remarks.

(g) Only Examiners who have themselves passed the colour vision tests are to undertake the local examinations.

(h) The fee paid for examination for a certificate of competency includes the fee of two rupees for examination in form and colour vision, and if the candidate fails to pass those tests, this fee will, with the exception of two rupees, be returned to him.

(i) No additional fee will be charged to any candidate referred for special examination, but a candidate who appeals against failure will be required to pay a special fee which will be returned to him if he passes the special examination. If a candidate, who has been reported by the Special Examiners as having failed, is still dissatisfied, it will be open to him, if he so desires, to present himself for a second special examination on payment of a fee of rupees seventy-five, provided that he brings with him a friend to witness the examination.

This second examination will, however, be entirely voluntary, and will form no part of the examination for a certificate of competency. The Local Government will, however, give consideration to the result of such examination in determining whether a certificate shall be granted.

The sight tests are open to all persons serving or intending to serve in the Mercantile Marine or in fishing vessels, and all such persons recommended to take the earliest opportunity of ascertaining whether their vision is such as to qualify them for service in that profession. Any such person, if desirous of undergoing the tests, must make application to the Port Officer, on the Form Enc. 2a, and must pay a fee of two rupees.

This fee will be payable on each occasion on which a candidate is examined.

40. **Special Regulations relating to the examination of Masters and Mates to apply only where the candidate has served an apprenticeship in an approved sea-going training ship, with a view to promotion in the service of the Company to which the training ship is attached.**—(1) The training ship must be a sea-going cargo-carrying square-rigged sailing vessel, and the course of study and practical training which the cadets receive must be approved by the Local Government.

At the end of four years' service in the training ship the cadet will be qualified for examination for a certificate as Second Mate, provided (a) he can produce a testimonial to the effect that both his conduct and his ability have given satisfaction during the whole period, and (b) that he has served *at sea* for not less than four-fifths of the time, that is to say, has not spent more than one-fifth of the time in home ports, *cf.* rule 104.

If the cadet has served previously for two years in either the "Conway" or the "Worcester" training ship, this time will be allowed to count as one year's qualifying service (*cf.* rule 100), and he will be required to serve for 3 years only in the Company's training ship before he can be allowed up for examination for a certificate as Second Mate (ordinary).

(2) A candidate who has served for four (or three) years on the training ship may be allowed up for examination for a certificate as First Mate (ordinary) when he has served, whilst holding a certificate as Second Mate, *for two years as junior bridge-keeping officer of the watch* upon vessels of the Company satisfying certain requirements [*see* sub-rule (4)]. The words "junior bridge-keeping officer" must be interpreted as meaning the junior of two bridge-keeping officers. Where three officers are on the bridge together, the service of the third does not fall within the scope of the Special Regulations, and his service cannot be accepted as qualifying. All cases where cadets, to whom these special regulations apply, subsequently present themselves for examination for First Mate or Master must be referred to the Port Officer so that their real position on board vessels of the Company satisfying the requirements of this rule may be verified by reference to the official logs before they are accepted as eligible for examination.

(3) A candidate who has obtained a certificate as First Mate in the above way may be allowed up for examination for a certificate as Master (ordinary) when he has served for eighteen months whilst holding the Certificate as First Mate, as a senior watch-keeping officer upon vessels of the Company satisfying the same requirements [*see* sub-rule (4)].

If the candidate has served for eighteen months as senior of the junior officers, *i.e.*, the officer next below the junior of the officers in full charge of the watch whilst holding the certificate as First Mate, he may be allowed up for examination for a certificate as Master (ordinary) on the understanding that the certificate as Master would not be issued to him until he had completed twelve months' service as a senior watch-keeping officer, the service in both cases to be performed on vessels satisfying the same requirements [*see* sub-rule (4)].

(4) The special regulations (sub-rules 2 and 3) in regard to the acceptance of service as qualifying for the examinations for certificates as First Mate and Master shall apply only when the service is performed in the specified capacities upon ocean-going steamers of not less than 8,000 tons gross, making an average speed of 15 knots or upwards and carrying a crew of not less than 130 men, including at least five deck officers besides the Master.

41. **Fore-and-aft certificates.**—Certificates for the grades of Second Mate, Only Mate, First Mate, and Master of fore-and-aft rigged vessels will be issued to candidates who have not complied with the regulation which requires them to have served at least one year in square-rigged sailing vessels, or who prove in course of examination that they are ignorant of the management of square-rigged ships. In other respects the qualifications for examination for such certificates are the same as for Ordinary certificates.

The examinations for the grades of Second Mate, Only Mate, First Mate, and Master, of fore-and-aft rigged vessels will be precisely the same as for the Ordinary certificates, excepting that in seamanship a knowledge of the management of square-rigged vessels is not required.

A certificate for fore-and-aft rigged vessels will not entitle the possessor to act in any case in which a certificate for square-rigged vessels is required. Amongst square-rigged vessels are classed full-rigged ships, barques, brigs, barquentines, brigantines, and steamships carrying square sails.

A candidate possessing a certificate for fore-and-aft rigged vessels, and desiring to be examined for an Ordinary certificate, must prove that he has served at sea at least one year in a square-rigged sailing vessel, unless he has previously held an Ordinary certificate of a lower grade.

42. **Steamship Certificates.**—Certificates applying only to steamships are issued to candidates who are either unable to comply with the regulations which requires them to have passed one year in square-rigged sailing vessels or who prove in course of examination that they are ignorant of the management of square-rigged sailing vessels. All the qualifying service prescribed for these certificates may have been performed in steamships.

These certificates will entitle the holders to go to sea as Masters or Mates of foreign-going steamships, but will not entitle them to go to sea as Masters or Mates of foreign-going sailing ships.

There will be no distinction in these certificates between fore-and-aft rigged steamships and square-rigged steamships.

**60. Yacht Certificates.**—The examination for these certificates is purely voluntary and is confined to persons who command their own British sea-going pleasure yachts. A Master of a yacht who is not also the sole owner, or who is under 21 years of age, is not eligible for examination.

Only one description of certificate will be issued, whether the yacht is foreign-going or cruises within the home-trade limits.

The certificate will not entitle the holder to command any vessel except the pleasure yacht or yachts, of which he is at the time the sole owner.

Candidates are not required to have served any specified time afloat, as it is believed that their sea knowledge will be sufficiently tested by the examination they will have to pass in seamanship.

Testimonials of service need not be shown, but a candidate for examination will be required to produce a statutory declaration to the effect (1) that he is sole owner of the yacht; (2) that the yacht is sea-going; (3) that it is not to be used for trading purposes. He will also be required to fill up the form of application (Form Exn. 2), and pay the fee of Rs. 30 at the Port Office, as prescribed in rule 5.

**63. Provisional Certificates.**—Provisional certificates for foreign-going ships or for foreign-going steamships, according to the candidate's qualifications, are granted on the conditions stated below to any officer of the Mercantile Marine who may require such a certificate to qualify him for appointment to or promotion in the Royal Naval Reserve. These certificates are only issued for Royal Naval Reserve purposes, and do not authorize the holders to go to sea as First Mate or Masters.

Candidates for these certificates must apply to the Port Officer, Calcutta, fill up the form of application (Exn. 2) and pay the usual fee. They must produce their First or Second Mate's certificates of competency, and an authority from the Local Government before they can be examined. This authority should be obtained through the Port Officer.

**64. Provisional Certificates, First Mate.**—Provisional certificates as First Mate are granted to candidates who can prove that they have served five years at sea and that during one year of this period they have served in a capacity not lower than Fourth Mate while holding a Second Mate's certificate. They must pass the usual examination for First Mate and pay the usual fee. The provisional certificate is exchangeable for the full certificate as First Mate, without further payment or examination, on production to the Port Officer of satisfactory proofs that the holder has served at sea not less than 12 months in a foreign-going vessel in a capacity not lower than Fourth Mate, and that during the whole of that period he has been in regular charge of a watch and in possession of a certificate of competency as Second Mate.

**65. Provisional Certificates, Master.**—Provisional certificates as Master are granted to candidates who can prove not less than six and a half years' service at sea, and who pass the usual examination for Master and pay the usual fee. Of this service two and a half years must have been served in a capacity not lower than Fourth Mate of an ocean-going steamship, during the last 12 months of which the candidate must have been in possession of a full certificate as First Mate. These certificates will be exchanged for the full certificate as Master without further payment or examination, on production to the Port Officer of satisfactory proofs that the holder has served at sea either (a) not less than two and a half years in a foreign-going vessel in charge of a watch in a capacity not lower than Fourth Mate, and that during 12 months of this period he has served as Second Mate while in possession of a full certificate of competency as First Mate, or (b) not less than three and a half years in a foreign-going vessels in charge of a watch in a capacity not lower than Fourth Mate, and that during two years of this period he has served in a capacity not lower than Third Mate whilst in possession of a full Certificate of competency as First Mate.

**66. Voluntary Examination in Compass Deviation.**—Any person holding a certificate of any grade in the foreign or home trade or as Master of his own pleasure yacht, who wishes to pass a voluntary examination in compass deviation, can at any time be examined upon filling up the usual form of application, and paying to the Port Officer the fee of Rs. 15. If the candidate passes the examination a note to that effect will be made upon his certificate.

**67. Voluntary Examination in signalling.**—The examination in Signalling as prescribed for candidates for the Extra Master's certificate is open as a voluntary examination to all persons holding, or who have passed for, or who are candidates for, a certificate of competency of any grade.

If the candidate passes, the fact with the date and place of passing will be recorded upon his certificate of competency.

Candidates may be examined at any port where Ordinary examinations are held upon filling up the form of application (Exn. 2) and paying the fee of Rs. 15. (See Appendix D.)

No fee, however, will be charged for this examination if it is taken at the same time as that at which a candidate is examined for any certificate of competency.

**68. Voluntary Examination in Steam.**—These examinations are provided for the purpose of giving Masters and Mates who are possessed of certificates of competency an opportunity of undergoing a voluntary examination as to their practical knowledge of the use and working of the steam-engine. They are conducted under the superintendence of the Port Officer at such times as he may appoint for the purpose.

The examination is open to any person who holds a Certificate of any grade in the foreign or home trade or as Master of his own pleasure yacht. Full particulars of the examination are given in Appendix H.

**69. Examination in Steam: how to apply.**—Candidates should fill up the form of application (Form Exn. 2) at the Port Office, pay the fee of Rs. 15 and deposit their certificates and testimonials with the Port Officer, who will inform them when and where to attend to be examined. The usual testimonials for sobriety and good conduct for at least the last 18 months preceding the date of application to be examined must be produced.

**70. Examination in Steam: endorsement of certificate.**—If the candidate passes, form Exn. 15, together with a written report of the examination, should be sent to the Port Officer and the candidate's certificate, together with the form Exn. 2, will be sent to the Local Government; the words "Certified to have passed in Steam," with the date and place of examination, will then be entered on the certificate and its duplicate, and the certificate will be sent to the Superintendent of the Mercantile Marine Office at the port named in the form Exn. 2, and will be delivered to the candidate in the usual manner.

The endorsement of a Master's or Mate's Certificate for "Steam" does not, however, imply that he is qualified to perform the duties of an Engineer.

**71. Examination in Steam: failure.**—If the candidate fails to pass his Certificate will be returned to him at once, but he may not present himself for re-examination until the expiration of three months from the date of failure.

**72. Certificates of Service.**—A person who has attained the rank of lieutenant in His Majesty's Navy or in His Majesty's Royal Indian Marine Service, is entitled to apply

for a certificate of service as Master of a foreign-going ship without examination. This certificate will not entitle the holder to go to sea as Master or Mate of a home-trade ship.

Certificate of service will be issued by the Board of Trade only. Applications for certificates of service of the Royal Indian Marine must be made on a printed form, Exn. 18, which will be supplied free of charge on application to the Director of the Royal Indian Marine.

Applicants on duty in India should submit their claims to the Director for transmission to the Government of India and the India Office. Officers on leave in England should submit their claims to the India Office on the printed form which may be obtained from that office.

Applications for certificates of service by officers of the Royal Navy on the active list must be made through their commanding officers, and applications from officers of the Royal Navy on half-pay must be made to the Secretary of the Admiralty, who in either case will forward the application to the Board of Trade.

**73. Ambulance Certificates and Government Awards.**—An officer in the Mercantile Marine who holds a certificate of proficiency in First Aid to the Injured from the St. John's or St. Andrew's Ambulance Association or some equivalent certificate, can have the fact endorsed on his certificate of competency provided the latter was issued before April 1st, 1908, if the two certificates are forwarded to the President of the Board of Examiners.

Recipients of Government awards can also have the fact stamped on their certificates of competency, if they submit evidence of the award together with their certificate in a similar manner.

### CHAPTER III.

#### RULES FOR ESTIMATING SEA SERVICE.

**74. Sea service.**—In these Regulations sea service is reckoned from the commencement to the termination of the voyage. The certificates of discharge for service in the foreign trade will generally be accepted as proof of sea service, but certificates of discharge for service in the home or coasting trade must always be sent to the Port Officer for verification. Port Officer and Examiners will be careful to see that these discharges have not been in any way tampered with, and will report any suspicious case to the Local Government.

For all certificates of competency as Master or Mate in the Mercantile Marine, the qualifying service usually required is service performed in ordinary trading vessels. While the Regulations provide for the acceptance in part of certain kinds of non-trading service (*e.g.*, that performed in fishing-boats, yachts, pilot vessels, etc.), non-trading service not specially provided for in the Regulations cannot be accepted as qualifying service unless it has been submitted to the Local Government and their sanction obtained.

**75. Sea service for foreign-going certificates.**—For foreign-going certificates the term "sea service" means, unless otherwise stated, service performed in foreign-going vessels.

**76. Officers' service: Home Trade.**—Service in a lower grade than First or Only Mate in the home or coasting trade will not be recognized as officers' service towards qualifying a candidate for examination for a foreign-going certificate.

**77. Service under the Admiralty.**—All service afloat in His Majesty's ships or in auxiliary supply ships or any other ships in attendance on the Fleet between August 4th 1914 and December 31st 1920 inclusive, will be accepted in full (subject to the ordinary conditions as laid down in these Regulations) as qualifying sea service for either Home Trade or Foreign-going certificate.

The Local Government cannot undertake to accept the whole or any definite proportion of service in the Royal Naval Reserve, which is not qualifying service in accordance with these Regulations, but they will be prepared to consider sympathetically an application for examination from a candidate who has been prevented by his service in the Royal Naval Reserve between August 4th 1914 and December 31st 1920 inclusive from complying fully with the requirements.

**78. Service in the Army.**—The Local Government is anxious that, so far as is reasonably possible, seamen or apprentices who served in the Army between August 4th 1914 and December 31st 1920 inclusive should not be hindered in their ordinary profession; and they are prepared to consider sympathetically any application to be examined by a candidate who has been prevented from complying fully with the Regulations owing to his service in the Army.

**79. Officers and seamen interned abroad.**—A portion of the time spent by officer and seamen interned abroad between August 4th 1914 and December 31st 1920 inclusive, will be accepted in lieu of a portion of the Qualifying sea service required to qualify them for examination for a certificate of competency. The amount of such time so allowed will be decided by the Port Officer.

80. **Service in Home Trade.**—For Home-Trade Passenger ship certificates service in the home or coasting trade is regarded as equivalent to service in the foreign trade; but for Foreign-going certificates it is regarded as only equivalent to two-thirds of the time served in the foreign trade, except in the case of Indian coasting voyages extending beyond a distance of 500 miles from the port of departure in vessels commanded by Masters holding foreign-going certificates, when such service will count as foreign voyages, and will be reckoned as full time; but the time spent in the port of departure or home port will not be allowed to count. In all cases the length of service is deemed to commence on the date of sailing from the port of departure or home port and to end on the date of arrival at the home port. Such service must be vouched for in the form laid down in Appendix M.

81. **Certificate, meaning of.**—By the word "certificate" is meant a certificate of competency granted by the Board of Trade under the Merchant Shipping Acts, or by the Government of British self-governing Dominion, Colony, or Possession, under an Order in Council issued in pursuance of the Merchant Shipping Acts.

A list of the Colonial certificates referred to will be found in Appendix L. They are of the same force as the corresponding certificates granted by the Board of Trade.

82. **Colonial local certificates.**—The holder of a Colonial certificate for foreign-going ships *not* granted under the Merchant Shipping Acts who desires to be examined for an Imperial certificate of the same grade, must prove that he has performed the amount of service required by these Regulations to entitle him to hold such a certificate. He must also produce satisfactory testimonials as to character for at least the last 12 months of sea service preceding his application to be examined.

83. **Foreign-going certificates.**—Where a foreign-going certificate is required in order to qualify a candidate for examination, the certificate may be either an Ordinary certificate, or a certificate for fore-and-aft rigged vessels, or a certificate for foreign-going steamships.

84. **Pilot defined.**—The term "pilot" in these Regulations (*see* rules 34 and 57 means a pilot who is employed in general pilotage, and holds a first class pilot's certificate from some competent authority authorising him to pilot vessels outside harbour and partially smooth water limits. A Houghly Master pilot is for the purpose of this rule to be considered as a first class pilot.

85. **Officer's service.**—Officer's service to be recognised as qualifying for purposes of examination must be performed with the requisite certificate as specified in appendix J. The officer's service performed by men who have been duly promoted during the course of a voyage (*see* rule 89) who, in consequence of serving in vessels plying between ports abroad, have been unable to obtain the necessary certificates, may, however, be recognised, provided that it is in other respects satisfactory.

86. **Foreign officers.**—Foreign officers who wish to apply for a British certificate of competency must in all cases have performed their qualifying officer's service with the requisite British certificate and must comply with rule 3. The service may have been performed in foreign vessels if the candidate can produce satisfactory testimonials as to conduct and character, and is able to prove that the service has been in the required capacities, and that during the period of service he has held a British certificate of competency of the grade required by the Regulations (*see* rule 90).

87. **In charge of a watch.**—When service in charge of a watch in either the foreign or home trade is specified in the regulations, candidates for certificates of competency as First Mate must be able to prove that during eight months at least of their service they have kept full regular watch *during the whole voyage, i.e., from port to port*, which, if in the foreign trade, must amount to not less than 8 hours of each 24 hours' service. Where a candidate can prove eight months of such full service, service performed in cases where watches were doubled at any time during the voyage will be accepted as equivalent to half the same period of full watch-keeping service. No amount of occasional service will, by itself, be accepted as qualifying service. Candidates for certificates of competency as Master will be required to have served during the whole of the time specified by the Regulations, in full charge of a watch, and no service performed under the system of double watches, except as the senior officer, will be accepted as qualifying service for a certificate of this grade. Great care must be exercised by the Examiners and others in regard to such service and unless the candidate produces a clear and satisfactory testimonial specially setting forth the above facts, from the Master or owner of the vessel in which the service was performed, it must not be accepted.

88. **Additional mates.**—Service as additional or auxiliary First or Second mates in large foreign going vessels, when in both cases Third and Fourth Mates are also carried, will count as First Mate's or Second Mate's service, as the case may be, provided that the candidate was entered on the articles in one of these capacities, and that he produces the necessary certificate (*see* rule 87) showing that he was in charge of a watch or watches during the whole time claimed. (*See also* rule 9).

**89. Promotion during voyage.**—Whenever a man has, from any cause, been regularly promoted on the occurrence of a vacancy in the course of the voyage from the rank in which he first shipped, and such promotion, with the ground on which it has been made, is properly entered in the articles and in the Official Log Book, he will receive credit for his service in the higher grade for the period subsequent to his promotion.

**90. Evidence as to Service in foreign vessels.**—The testimonials of service of foreigners and of British officers and seamen serving in foreign vessels, which cannot be verified by the Port Officer, must be confirmed either by the Consul of the country to which the ship in which the candidate served belonged or by some other recognised official authority of that country, or by the testimony of some credible person on the spot having personal knowledge of the facts required to be established. The production, however, of such proofs will not of necessity be deemed sufficient. Each case will be decided on its own merits, and if the sufficiency of the proofs given appears to be at all doubtful, it must be referred to the Government for decision.

**91. Auxiliary screw ships.**—Service in vessels with auxiliary steam or motor power which use their propelling machinery only in calms or during light winds, is considered as service performed in sailing vessels.

**92. Excursion steamers.**—In the case of excursion steamers only such service as can be proved to have been performed at sea will be accepted.

**93. Service as carpenter, sailmaker, cook, steward, etc.**—Candidates whose service has been performed in capacities other than apprentice, midshipman, cadet, ordinary seaman or able seaman—*e.g.*, men who have served as carpenter, or sailmaker, or as cook in small vessels where cooking is only a part of a man's duty—will be required to satisfy the Port Officer that they have during the whole time claimed performed deck duties in addition to their own particular work, and that they have a good knowledge of seamanship. These facts may possibly be proved by the production of satisfactory certificates from the Masters with whom the candidate has served; but such service will only be accepted as equivalent to two-thirds of the time served as ordinary deck hand. Failing satisfactory evidence, the applicant will be required to perform additional service in the capacity of seaman. Service as cook (under other conditions than the above), or as steward, purser, or wireless operator will not be accepted.

**94. Service as wireless operator.**—If a candidate has been engaged on articles of agreement as seaman or in any seamen rating and has served both as a seaman and as a wireless operator two-thirds of such service may be counted as qualifying service.

If a candidate has been engaged on articles of agreement as a wireless operator and has served as such, one quarter of the service up to a maximum of twelve months may be counted as qualifying service.

**95. Service in fishing or pilot vessels.**—Service performed exclusively in trawlers and other deep sea-fishing vessels, or in pilot vessels, will not qualify a candidate for examination. He must in addition prove the following service:—

- (a) For a Foreign-going certificate, service for at least 18 months in an ordinary trading vessel in the foreign trade, or the equivalent period, 27 months, in the home or coasting trade.
- (b) For a Home-Trade Passenger Ship certificate, service for at least twelve months in an ordinary trading vessel in the foreign, home, or coasting trade.

**96. Service in yachts.**—Service in pleasure yachts will be accepted as qualifying service under the following conditions:—

- (a) It must in all cases be verified by satisfactory proofs, which must set forth clearly and in detail the nature and duration of the service claimed; and it must be distinctly understood that only actual sea service will be accepted, and that service in harbour or port is inadmissible.
- (b) Service in foreign-going yachts will be accepted in full; and service performed within Home-Trade limits in sailing yachts of not less than 50 tons net register or in steam yachts of not less than 80 tons gross register will be accepted in the proportion stated in rule 80; but candidates must also show (1) for a Foreign-going certificate, service for at least 18 months in an ordinary trading vessel in the foreign trade, or for the equivalent period, 27 months, in an ordinary trading vessel in the home or coasting trade; (2) for a Home-Trade Passenger ship certificate, service for at least 12 months in an ordinary trading vessel in the foreign, home, or coasting trade.
- (c) Service within Home-Trade limits in sailing yachts of 20 tons net register, or in steam yachts of 40 tons gross register, will be accepted towards qualifying a candidate for a foreign-going certificate as equivalent to half the same time served in the foreign trade, but no amount of such service shall count as more than two years' service in the foreign trade, and no such service shall count as officers' service to qualify candidates for foreign-going certificates.
- (d) Service within home-trade limits in sailing yachts of not less than 20 tons net register, or in steam yacht of not less than 40 tons gross register, will be

accepted at the ordinary rate as qualifying service for Home-Trade Passenger Ship certificates, but candidates must prove that they have in addition served for at least 12 months in an ordinary trading vessel in the foreign, home, or coasting trade.

- (e) Service within Home-Trade limits in sailing yachts of less than 20 tons net register, or in steam yachts of less than 40 tons gross register, will not be accepted as qualifying service for any class of certificate.

**97. Service in tugs, War Department vessels, etc.**—Service performed in tugs employed in Channel service or outside partially smooth water limits may be accepted as sea service for the purpose of qualifying a candidate for a Mate's or Master's certificate for Home-Trade Passenger Ships only.

Service performed in War Department vessels employed outside partially smooth water limits may be accepted as sea service to qualify a candidate for a Mate's or Master's certificate for home-trade passenger ships only. This service cannot be accepted towards qualifying a candidate for a Foreign-going certificate, unless there should be some very exceptional circumstances, when the case, together with all the candidate's papers, should be submitted to the Port Officer for his consideration.

**98. Service in dredgers.**—Service in steam hopper barges may, subject to the provisions of rule 100, be allowed to count towards qualifying a candidate for a Mate's certificate of competency for home-trade passenger ships provided the candidate can prove at least two years' service in an ordinary trading vessel in either the home, coasting, or foreign trade. Service in these steam hoppers will not be accepted as officer's service towards qualifying a candidate for a Master's certificate.

**99. Service in lightships or engine-room.**—Service in lightships or in an engine-room will not be accepted as sea service.

**100. Service on rivers.**—Service performed on rivers, no matter of what size, and service performed within smooth or partially smooth water limits will not be accepted.

Where any doubt whatever exists on this point, the candidate will be required to produce a certificate from the Master or owner of the vessel in which the service was performed, before the service can be accepted.

**101. Training ships.**—Time served on board a training ship will be allowed to count as equivalent to one-half the same time spent in service at sea, up to a limit of two years (*i.e.*, no length of service will be allowed to count as more than one year at sea), provided that the candidate can produce a certificate from the Committee or Captain Superintendent that he has conducted himself creditably and passed a good examination in seamanship so far as it is practised in the training ship, as well as in other matters down to the time of his leaving the ship. Training ship service will not be regarded as equivalent to service in square-rigged vessels.

**102. School for nautical training.**—Time spent at a school for Nautical Training conducted on premises ashore may be allowed to count in some proportion, not exceeding one-half, as service at sea provided that—

- (a) the school is in receipt of a grant from the Board of Education under the Regulations for Schools of Nautical Training;
- (b) after an inspection by one of their officers the Board of Trade are satisfied that the school gives a training that justifies time spent there being reckoned as part of the necessary qualifying time for a certificate of competency;
- (c) the candidate produces a satisfactory certificate as regards conduct and proficiency from the authorities of the school on leaving it.

The proportion in which time spent at a school conducted on premises ashore will be accepted as qualifying under the above provisions will be decided after inspection by one of the Board's officers, but time spent at the school will never be counted as equivalent to more than one-half of the same time spent at sea, nor will it in any circumstances be taken as equivalent to more than one year at sea.

**103. Apprentices.**—The *whole* of the time claimed under indentures of apprenticeship will be accepted as actual sea service to qualify under rule 30 for a second Mate's certificate provided (a) that the indentures have not been cancelled through some fault of the candidate, but are endorsed by the owner or Master to whom he was bound to the effect that he has performed his service faithfully during the time he remained as apprentice; and (b) that the candidate has served at sea fourth-fifths of the time claimed, that is to say, has not spent more than one-fifth of the time in home ports.

In cases where an apprentice is qualified for examination before the expiration of his indentures, *e.g.*, where he has had training ship or other sea service prior to being bound, which, together with his actual time as apprentice, makes up the required four-years, or where his indentures are for a period of more than four years, a letter from the owner or Master will be accepted in place of the endorsement referred to above.

In the event of the candidate being short of the required four-fifths of the time claimed as apprentice out of the United Kingdom, he will be required to show sufficient

additional sea service, either as seaman or junior officer, to make up the four-fifths of the time claimed.

**104. Midshipmen and cadets.**—The *whole* of the time served as midshipman or cadet under indentures will also be accepted subject to the *same* conditions as those laid down for apprentices; and the same will be the case even when not bound by indentures, provided that the service as midshipman or cadet has been continuous, and that on the date of the termination of the period of service claimed in this capacity the candidate was on articles of agreement, and that he is able to comply with the requirements laid down in the matter of serving or making up the four-fifths period at sea during the time claimed.

**105. Lighthouse tenders.**—Service performed in the sea-going steam vessels of the Trinity House, of the Commissioners of Northern Lighthouses, or of the Commissioners of Irish Lights, or in Irish and Scotch Fishery Cruisers, will be accepted as sea service for the purpose of qualifying a candidate for examination for a home-trade passenger ship certificate; but for a foreign-going certificate a candidate must show in addition to this service calculated in accordance with rule 80 at least twelve months in an ordinary trading vessel. In order to qualify a candidate for an ordinary certificate, this twelve months must have been performed in a square-rigged sailing vessel. (See rule 28.)

**106. Service in Royal Navy.**—Officers of the Royal Navy are at liberty to apply for certificates of service and to be examined for certificates of competency in the Mercantile Marine, but the Lords Commissioners of the Admiralty have directed that the applications of officers on the active list should be made through their commanding officers, and that the applications of officers on half-pay should be made to the Secretary of the Admiralty, who, in either case, will forward the application to the Board of Trade. In the case of Royal Indian Marine officers, applications for certificates of service should be made on a printed form Exn. 18, which will be supplied free of charge on application to the Director of the Royal Indian Marine. Applicants on duty in India should submit their claims to the Director for transmission to the Government of India and the India Office. Officers on leave in England should submit their claims to the India Office on the printed form which may be obtained from that office.

The conditions on which certificates of service are issued are stated in rule 72.

**107. Qualifications required of Naval and Indian Marine Officers.**—Officers of the Royal Navy or of the Royal Indian Marine who wish to be examined for certificates of competency in the Mercantile Marine will be required to prove the following service; and if an officer wishes to obtain the ordinary certificate for foreign-going ships he must prove that at least twelve months of this required period was served under sail alone:—

- (a) For second Mate. The officer must prove four years' service at sea.
- (b) For only Mate. Five years' service at sea.
- (c) For First Mate or Master. The officer must prove that he has attained the rank of lieutenant in the Royal Navy, or in the Royal Indian Marine.

**108. Service in Royal Naval Reserve.**—Lieutenants, sub-lieutenants, and acting sub-lieutenants of the Royal Naval Reserve who perform sea service on board His Majesty's ships, will, if accompanied by a good report, be allowed to count such service as if it had been performed in foreign-going merchants ships, and the service will rank according to the certificate of competency held by the candidate at the time.

The time spent in Periodical Training in the Royal Naval Reserve on board sea-going vessels of the Royal Navy, if accompanied by a good report, will be accepted in full, but in the case of midshipmen, will not count as officer's service. In the case of service in Harbour ships of the Royal or Colonial Navies, only one-half of the time will be accepted as sea service, and no such service must amount to more than one-fourth of the time required for the particular grade of certificate applied for.

#### CHAPTER IV.

##### CONDUCT OF THE EXAMINATION.

**109. The examinations** will begin at 10 A.M. on each day. A regular luncheon interval will be given each day between 1 P.M. and 2 P.M., the *civis voce* and practical parts of the examination being taken at such times as may be convenient. The time allotted for each written part of the examination for each grade of certificate will be as follows:—

**112. No strangers admitted.**—No person will be allowed in the room during the examination other than those whose duties require them to be present.

No instructors will be allowed on the premises.

**113. Books and papers strictly forbidden.**—Candidates are prohibited from bringing into the examination room books or papers of any kind whatever. The slightest infringement of this rule will subject the offender to all the penalties of a failure, and he will not be allowed to present himself for re-examination for a period of three months.

**114. All work to be shown.**—No candidate will be allowed to work out his problems on waste paper, or to write on the blotting paper supplied for his use in the examination. Violation of this rule will subject the candidate to all the penalties of a failure.

A sheet of blotting paper should be issued to each candidate with the first examination paper, and it must be returned to the examiner when the last paper is completed each day. The Examiner will be careful to see that the blotting paper has not been used by the candidate in solving his problems, or for conveying information to other candidates.

**115. Instruments, Books, etc., are provided.**—All instruments, books, etc., necessary for use in the examinations are supplied by the Local Government.

**116. Leaving room or building.**—No candidate may leave the examination room without permission and without giving up the paper on which he is engaged. Under no circumstances will a candidate be allowed to leave the building while the examination is proceeding. Violation of this rule will subject the candidate to all the penalties of a failure.

**117. Copying, etc., to be prevented.**—Candidates should be so placed as to prevent one copying from the other, and no communication whatever between the candidates should be allowed.

**118. Penalty for Copying, etc.**—In the event of any candidate being discovered referring to any book or paper, or copying from another, or affording any assistance or giving any information to another, or communicating in any way with another, during the time of examination, or copying any part of the problems for the purpose of taking them out of the examination rooms he will subject himself to all the penalties of a failure and will not be allowed to be examined for a period of six months.

A candidate guilty of a second offence will not be allowed to be examined until 12 months have elapsed.

**119. Injury to books, instrument, etc.**—If a candidate defaces, blots, writes in, or otherwise injures any book or form belonging to the Local Government, the papers will be retained until he has replaced the damaged book or document. He will not be allowed to remove the damaged book or document or instruments and will be subjected to all the penalties of a failure.

**120. Silence.**—Perfect silence is to be preserved in the examination room.

**121. Penalty for breach of rules.**—Any candidate violating any of the regulations, or being guilty of insolence to the Examiner, or of disorderly or improper conduct in or about the room, will render himself liable to the postponement of his examination, or, if he has passed, to the detention of his certificate for such period as the Local Government may direct.

**122. Examination papers: how to be dealt with.**—The examination papers of candidates must in all cases be sent to the Port officer for his approval, together with the report of the examination on the forms Exn. 14 and Exn. 34.

**123. Examination in Navigation.**—The whole of the written portion of the examination will be taken on the marks system. The candidate will be furnished with sheets of the blank ruled paper (Exn. 30) which is supplied for the purpose, with instructions that he is to work or write only on one side of the paper, and to answer in a clear and legible hand each of the questions on the paper, and to commence each answer by writing down the number of the question to which it relates in the margin. Marks will be allotted for each question, and candidates will be required to obtain 75 per cent. of the total marks in order to pass for an Ordinary Certificate. Papers will not be handed back to candidates for correction.

**124. Compass Deviation.**—In answering questions on the tentative method of compass adjustment, the candidate will be tested by Beall's Compass Deviascope.

**125. Barometer, tides, &c.**—The examination on the barometer, thermometer, and hydrometer, prevailing winds and currents of the globe, trade, routes, and tides, will be conducted orally, and the questions asked by the examiner, which will be constantly varied, will be confined to and based on the information given in the text-books mentioned in Appendix K; candidates will be required to have a fair and intelligent knowledge of the contents of those books.

**126. Sextant.**—Particular attention should be paid to the sextant, the examination in which will be conducted orally and practically. Every candidate will be required to measure both vertical and horizontal angles, and will be examined practically as to his knowledge of the adjustments and the use of the various screws; he must be able to read correctly on and off the arc, and must also be able to find the index error both by the horizon and by the sun.

**127. Corrections by tables.**—The corrections by inspection of tables given in some of the works on navigation will not be allowed; every correction must appear on the papers of the candidates.

**128. Degree of precision required.**—Degree of precision required in the solution of the problems:—

- (a) Candidates are expected to work their problems to the nearest half-minute of arc and to the nearest second in time.
- (b) In interpolating for the correct deviation to be applied in solving the chart questions, it will usually be sufficient if the candidate works throughout with the nearest degree of deviation taken from the deviation card; and even in cases where the deviations may vary but little, the nearest half degree used throughout will be sufficiently precise. It is not necessary that the candidate should waste his time in solving the course to odd minutes, as is sometimes done.
- (c) In calculating the correction to apply to soundings the candidate is not required to work to the exact inch, as is sometimes done. It will be sufficient if he brings his answer within half a foot or so of a precise result.

**129. Candidates may use own method.**—Candidates will be allowed to work out the various problems according to any method they have been accustomed to use, provided such methods correct in principle.

**130. Supplementary viva voce.**—Candidates will be examined orally as to their knowledge of all their written and worked papers.

**131. No candidate to be examined twice in a week.**—A candidate will not be allowed to undergo examination twice in the same week, unless, under very special and urgent circumstances, the Examiner should see fit to relax this rule. In that case a special set of problems should be supplied to the candidate.

## APPENDIX D.

(See Rules 31 and 67.)

## EXAMINATION IN SIGNALLING.

The examination in Signalling should in all cases and for all grades commence with an examination in the International Code and be followed by an examination in the Allied Signal Manual, including Morse Flashing, Flag-waving and Semaphore.

*International Code.*—Examiners are recommended to frame the examination in the International Code of Signals, upon the instructions and illustrations given at the commencement of Parts I and II of the Signal Book. The information there given will be found sufficient to indicate all the characteristics of the Code.

By the form of the hoist, an observer can at sight understand the nature of any signal he sees flying; the examination should, therefore, tend to elicit a clear knowledge of all the distinctive features of the Code.

With this object in view, the examiners should question the candidates as to the distinguishing forms of the respective hoists, which will be indicated according as a burgee, a pennant, or a square flag is uppermost, and also with regard to the number of flags, and the position of the Code flag when used in the hoist; making the 1, 2, 3 and 4 flag signals with the flags supplied for the purpose, and varying the signals made, showing 2 and 3 flag signals, with and without the Code flag included, or a Geographical or a Vocabulary signal, the name of a merchant ship or of a ship of war.

As the two latter signals would not be found in the Signal Book, the candidate should know where to find them and how to look them out.

The candidate should:—(a) Be able to read a signal at sight, so far as to name the flags composing the hoist. (b) Know the use of the Code pennant and of the pennants C and D, "Yes" and "No," also of the two burgees A and B, and the square flags S and P, and the flags used to indicate cholera, plague, etc., on board, and the quarantine flag. (c) Be required to signal some word or words not included in the vocabulary of the Code either by letters or by the Spelling Table (page 516) or both. (d) Have a knowledge of the Distant Signals, and of their object, and the different modes of signalling therewith. (e) Know the special Morse signals indicated by certain letters as given on page 550. (f) Have a good knowledge of the Distress Signals and understand the penalty which may be incurred by their improper use.

The International Code is used on board His Majesty's ships, and it has been adopted by all the principal Maritime Powers for their public as well as merchant ships.

*Allied Signal Manual.*—Candidates will be expected to know the meaning of any or all of the single flag signals given therein, and the significations of the Pilot Jack when incorporated in a hoist. They should also be required to make or read from the Pilot Jack table a hoist given by the Examiner. Candidates need not be expected to commit the Pilot Jack table to memory but there should be no hesitation whatever in making or reading a signal. They should also know how to recognise any of the Special Signals given at the end of the Allied Signal Manual.

*Morse Flashing Flagwaving and Semaphore.*—Candidates for the voluntary examination in signalling will be required to attain a minimum speed of 12 words a minute in semaphore, 10 words a minute in Morse flashing and 6 words a minute in Morse flagwaving (the average length of a word being taken as 5 letters).

Candidates for other certificates will only be required to attain a speed of 6 words a minute in Morse flashing and 6 words a minute in Morse flagwaving and 10 words a minute in Semaphore.

In the ordinary examination, it will be sufficient if in Morse flashing a candidate is given a test card and a spelling message of 10 words, in Morse flagwaving a spelling message of 10 words, and in Semaphore a spelling message of 25 words.

In the voluntary examination in signalling, the Semaphore test will be a spelling message of 50 words.

The Morse flashing and flagwaving test will be a test message (see Allied Signal Manual) followed by a spelling message of 25 words.

The candidates must attain a degree of accuracy of at least 90 per cent. both in making and reading in each method, i.e., Flashing, Flagwaving and Semaphore.

In the examination in Morse flashing and flagwaving the candidate should be first required to make a test message, followed by a spelling message of 25 words. The examiner should then make a test message, followed by a spelling message of 25 words to be read by the candidate.

The same procedure must be observed in the Semaphore examination, except that, as a test message is not given, the candidate will be required to make a spelling message of 50 words and then to read a message of 50 words made by the Examiner. The Semaphore messages may be made either by hand flags or mechanical Semaphore or both at the discretion of the Examiner.

In the Morse flashing and flagwaving examination, marks will be allotted for the test message in the proportion of 50-75 of a mark for each correct letter (see table at back of test cards), and for the spelling message 2 marks for each correct word or group of figures. The candidate must for a pass gain an aggregate of at least 90 per cent. of the maximum marks in both spelling and test messages.
